ATTACHMENT G – COST SCHEDULE PART A
NVARNG

VENDOR'S NAME: Clean Harbors Environmental Services, Inc.

Proposals for RFP 3498 – Hazardous Waste Transportation will be evaluated and scored based on the criteria in ***Section 10.1 Criteria Description*** of the RFP, with the following Vendor "Pick –Up Cost" used from the examples below. All costs used in Part A ("Pick-Up Cost") must match the costs in ***Part B*** of the ***Cost Schedule***.

PICK-UP IN THE NORTH

Pick-Up Location: Fairview Complex, 2460 Fairview Dr., Carson City, NV 89701	
Equipment: 1 Chemist, 1 Technician, 1 Truck	$
Waste: -2 x 55 gallon drums of flammable paint related material -3 x 4 ft CFL light tube boxes -4 x 1 gallon container of non-chlorinated weapons cleaning solvent -1 x 55 gallon drum of petroleum contaminated soil	$
Mobilization:	$
Transportation & Disposal:	$
Supplies:	$
Total:----------$	

See Attached Sample Invoice

PICK-UP IN THE SOUTH

Pick-Up Location: Floyd Edsall Training Center, CSMS2, 6400 Range Rd., Las Vegas, NV 89115	
Equipment: 1 Chemist, 1 Technician, 1 Truck	$
Waste: -7 x 4 ft CFL light tube boxes -3 x 55 gallon drums of petroleum contaminated rags -6 x 55 gallon drums of used antifreeze -475 gallons of used oil in an above ground storage tank -3 x 5 gallon bucket of alkaline batteries	$
Mobilization:	$
Transportation & Disposal:	$
Supplies:	$
Total:----------$	

See Attached Sample Invoice

PICK-UP Rural

Pick-Up Location: Winnemucca Armory, 735 W. 4th St., Winnemucca, NV 89444	
Equipment: 1 Technician, 1 Truck	$
Waste: -3 x 30G Oxidizing Solid -1 x 5G Oxidizing Liquid -4 x 55G PRM -2 x 16 G Flammable Solid	$
Mobilization:	$
Transportation & Disposal:	$
Supplies:	$
Total:----------$	

See Attached Sample Invoice

VENDOR'S NAME: CleanHarbors®

PICK-UP IN THE NORTH														
Pick-Up Location: Fairview Complex, 2460 Fairview Dr., **Carson City,** NV 89701														
Equipment: 1 Chemist, 1 Technician, 1 Truck														
Waste:														
-2 x 55 gallon drums of flammable paint related material														
-3 x 4 ft CFL light tube boxes														
-4 x 1 gallon container of non-chlorinated weapons cleaning solvent														
-1 x 55 gallon drum of petroleum contaminated soil														
EQUIPMENT / MOBILIZATION :					Unit Rate		Subtotal							
1	Chemist			EA	$55.00			$55.00						
1	Technician			EA	$45.00			$45.00						
1	Truck			EA	$150.00			$150.00						
Transportation & Disposal:				WCC	Unit Rate		Subtotal		Assumptions					
2	55g drums loosepacked PRM			LPTP	$191.00			$382.00	The guard packaged this waste.					
45	lbs of fluorescent light tubes in 3-4ft boxes			CFL1	$1.00			$45.00	The guard packaged this waste. Assumes each full box weighs 15 lbs					
1	15 g labpack flammable solvents			LFB1	$167.00			$167.00	Clean Harbors will package this waste					
1	55g petroleum impacted soil			CNO	$98.00			$98.00	The guard packaged this waste.					
Supplies:					Unit Rate		Subtotal							
1	15g open top drum				$60.00			$60.00						
1	PPE level D							$0.00						
1	Technician							$0.00						
1	Chemist							$0.00						
SubTotal:								**$1,002.00**						
	Recovery Fee			4% of invoice				$40.08						
Total:								**$1,042.08**						

VENDOR'S NAME: CleanHarbors®

PICK-UP IN THE SOUTH							
Pick-Up Location: Floyd Edsall Training Center, CSMS2, 6400 Range Rd., **Las Vegas**, NV 89115							
Equipment: 1 Chemist, 1 Technician, 1 Truck			+ 2 Vacuum Trucks & driver				
Waste:							
-7 x 4 ft CFL light tube boxes							
-3 x 55 gallon drums of petroleum contaminated rags							
-6 x 55 gallon drums of used antifreeze							
-475 gallons of used oil in an above ground storage tank							
-3 x 5 gallon bucket of alkaline batteries							
Mobilization:				Unit Rate		Subtotal	
0	Chemist		EA	$55.00		$0.00	Assumes no OnSite Time
1	Technician/ Driver		EA	$45.00		$45.00	
1	Truck for drums		EA	$150.00		$150.00	
1	Stop Fee for Vacuum Truck w Driver for waste oil		EA	$100.00		$100.00	
1	Stop Fee for Vacuum Truck w Driver for antifreeze		EA	$100.00		$100.00	
Transportation & Disposal:			WCC	Unit Rate		Subtotal	Assumptions
105	lbs of fluorescent light tubes in 3-4ft boxes		CFL1	$1.00		$105.00	The guard packaged this waste. Assumes each full box weighs 15 lbs
3	55g petroleum impacted soil		CNO	$98.00		$294.00	The guard packaged this waste.
330	gal Spent Antifreeze (Safety-Kleen will pump waste out of 6-55g drums)		B35	$0.20		$66.00	Clean Harbors' Safety-Kleen division will pump this waste out of the drums into vac truck
475	gallons waste oil (Safety-Kleen will pump waste out of AGST)		A31	$0.10		$47.50	Clean Harbors' Safety-Kleen division will pump this waste out of AGST into vac truck
3	5g drums Alkaline Batteries		LBD1	$70.00		$210.00	The guard packaged this waste. Assumed each 5 gallon drum weighs 50 lbs
Supplies:				Unit Rate		Subtotal	
1	PPE level D			$0.00		$0.00	
SubTotal:						**$1,117.50**	
	Recovery Fee		4% of invoice			$44.70	
Total:						**$1,162.20**

See General Pricing Conditions for additional pricing notes and assumptions

General Pricing Conditions

General Pricing Conditions

This proposal is submitted contingent upon the right to negotiate mutually acceptable contract terms and conditions, which are reflective of the work contemplated and an equitable distribution of the risks involved therein. In the event that such agreement cannot be reached, Clean Harbors reserves the right to decline to enter into such an agreement without prejudice or penalty.

Assumptions and Considerations

Please find below the general pricing conditions for this contract. These conditions govern all waste streams and generic pricing covered under this contract. These conditions are in addition to specific pricing notes provided on the pricing matrixes.

1. All manifests and labels will be furnished at no charge. Electronically submitted profiles will be approved at no charge.

2. All approved ("Approved") waste streams are coded with Clean Harbors' Waste Classification Codes, which define the specifications for drummed, containerized and bulked wastes. Wastes that are received not conforming to these specifications may be subject to additional costs. A completed waste profile sheet, sample, representative analysis or MSDS must be submitted prior to approval and scheduling.

3. Clean Harbors supports many invoice delivery options (E-mail, Electronic Invoicing, EDI, Etc.). Pricing is based on Clean Harbors' standard invoice delivery method of E-mail. If another delivery method is required there could be an additional service fee per invoice. Any alternate delivery methods must be reviewed and approved by Clean Harbors prior to acceptance and implementation.

4. Lab Pack rates do not include explosive or potentially explosive, radioactive, temperature sensitive or infectious materials. Clean Harbors reserves the right to decline to accept for disposal any waste materials which, in its reasonable judgment, it cannot dispose of in a lawful manner or without a risk of harm to public health or the environment, or for which no legal means of disposal exists. Clean Harbors will provide separate quotations for any potential high-hazard work (i.e. peroxidized ethers, explosives, cylinders, etc.) upon request.

5. Some bulk waste streams require a sample prior to acceptance and approval. Final pricing for bulk waste streams will be determined from actual samples and/or trial loads. Specifications for bulk waste streams will be individually defined, but will generally follow the same specifications as the containerized wastes.

6. All pricing presented in this contract is based on Clean Harbors' ability to utilize our approved network of audited TSDFs. If the number of sites approved by NVARNG is reduced or restricted, additional costs may be applied due to increased handling of wastes and reduced economies of scale.

7. Local, state and federal fees/taxes applying to the generating location/receiving facilities as well as applicable sales taxes are not included in disposal pricing and will be added to each

invoice as applicable.

8. Unless otherwise noted on the bid price sheet, all prices are in US funds. Upon contract award, Clean Harbors will convert US funds to Canadian funds for Canadian generators using the current exchange rate at the time of the bid award.

9. Container Size Disposal Pricing as a Percent of 55-Gallon Drum Prices

   Different size container pricing will be priced accordingly. Odd sizes not covered herein will be priced case-by-case.

Container Size	Container Multiplier*
5 gallon or less	55 gallon price x 0.30 or drum minimums listed below whichever is greater
6 gallon – 20 gallon	55 gallon price x 0.60
21 gallon – 30 gallon	55 gallon price x 0.75
31 gallon – 55 gallon	55 gallon price x 1.00
56 gallon – 85 gallon (overpacks)	55 gallon price x 1.45
Cubic Yard Boxes	55 gallon price x 3.50
Tote (<300 gallon)	55 gallon price x 5.00
Tote (300 - 375 gallon)	55 gallon price x 6.30

*Or as otherwise indicated on bid spreadsheet.

10. 5-Gallon Drum Minimums

    The following waste streams in 5-gallon containers will be priced as listed rather than the standard 30% of the 55-gallon rate. Using the standard conversion would actually price these particular streams below our cost to dispose of them.

Waste Description	Minimum Charge
Electronics	$15.00
Solvents, Fuels, Non-Haz Landfill	$40.00
PCB Reclamation, Empty Drum Incineration	$50.00
Clean Extraction System (CES), Non-Haz Incineration, Batteries (except Lithium & Mercury), Light-Treat WWT, Haz Landfill, Lab Packs for: Fuel, WWT, & Landfill	$65.00

Incinerable Liquids, Lightweight Incinerable Solids, Solid Fuels, Lab Packs for Incineration, PCB Landfill, Bio Haz Waste, Corrosive Fuels	$85.00
Incinerable Solids, PCB Incinerables, A99s (other than reactives and direct burns), Oxidizers, Heavy-Treat WWT, RCRA Medical Waste, Canadian Landfill, and NORM Waste	$140.00
Lab Pack Reactives, Bulk Reactives, Direct Burns, Mercury Debris, Mercury Batteries, Lithium Batteries	$200.00
DEA Controlled Substances	$250.00
Mercury Compounds/Salts/Solutions, Mercury for Incineration, Lab Packs for Stabilization with High Arsenic	$425.00
Reactive Alkali Earth Metals for Incineration	$550.00
Dioxins for Incineration in Canada, DEA Controlled Lab Packs for Reverse Distribution	$870.00
Empty Drums/Empty PCB Drums ≤ 5gal	$15.00

11. Other Minimums

Bulb Shipments	$50.00 minimum per shipment per CHES waste class code (WCC)
Empty Drums/Empty PCB Drums > 5gal < 20gal ≥20gal	 $20.00 ea minimum $40.00 ea minimum

12. Per pound surcharges will apply to certain waste Classification Codes as follows:

    12.1. FB5 – Base price up to 200 lbs., $.75/lb. thereafter

    12.2. CCRK – Base price up to 500lbs, $.95/lb. thereafter

13. Dedicated or non-milkrun emergency pickups will be charged at full truckload price. Cancellation of a pickup with less than 24 hours notice will incur a $287.00 cancellation fee.

14. Time over eight (8) hours in the normal workday and all day Saturday is considered overtime and will be billed at 1.5 times the applicable straight time rate for all billable personnel unless otherwise quoted. Sunday and Holidays are considered premium time and will be billed at 2.0 times the applicable straight time rate for all billable personnel unless otherwise quoted.

15. Transportation charges to the final disposal facility will be charged in addition to local transportation to our truck to truck hub/local facility and will vary with logistics and routing.

16. All transportation rates are based on utilization of Clean Harbors' transportation equipment or Clean Harbors approved transporters.

17. Drum Shipment Demurrage Schedule - Demurrage will not be charged for pickup of waste up to and including 1 hour loading time. After 1 hour, a $100.00/hr fee will apply.

18. Clean Harbors requires free and easy access to each pickup site. Drums/containers must be in DOT shippable condition.

19. Clean Harbors Energy and Security Recovery Fee

Clean Harbors is currently applying a Recovery Fee that is comprised of two components; a 2.0% charge for insurance, liability, and security costs; and a charge for Energy costs that is revised monthly based on the average diesel prices from the US Department of Energy.

Clean Harbors is offering NVARNG a significantly reduced Recovery Fee at a rate of 4% as long as the current average diesel prices from the US Department of Energy (http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp) remains at or below $3.00/ gallon. If the monthly average diesel prices exceed $3.00/gallon, an additional 0.5% Energy Fee will apply for each $0.10 increase in diesel cost above $3.00/gallon. The Recovery Fee will be applied to the entire invoice amount and will be broken out as a separate line item.

The rate for energy costs will increase if the average price of diesel has changed from the previous range for a period of more than two out of the previous three weeks. Energy cost charges will be set on the first Wednesday of the month based on data from the US Department of Energy's website (*http://tonto.eia.doe.gov/oog/info/wohdp/diesel.asp*). New rates will apply to invoices cut the following Monday.

Diesel Price Range			Recovery Fee
up to		3.00	4%
3.01	-	3.10	4.5%
3.11	-	3.20	5.0%
3.21	-	3.30	5.5%
3.31	-	3.40	6.0%
3.41	-	3.50	6.5%
3.51	-	3.60	7.0%
3.61	-	3.70	7.5%
3.71	-	3.80	8.0%
3.81	-	3.90	8.5%
3.91	-	4.00	9.0%
4.01	-	4.10	9.5%
4.11	-	4.20	10.0%
4.21	-	4.30	10.5%
4.31	-	4.40	11.0%
each $0.10 increase thereafter			additional 0.5% each increase

Waste Class Code Specifications

WWC	Waste Classification Description	Specification
A31	Specification Oils	Solids Content less than 6% Ash less than 5% PCB less than 2 VOCs less than 1% if lighter than mineral spirits Less than 10% medium boiling hydrocarbons less than 90% high boiling hydrocarbons Viscosity less than 1,000 CPS Organic Chlorine (organic phase) less than 5,000 PPM Flashpoint greater than 141F pH = 4 - = 11 For drum shipments: less than 10 percent water Caustic Coagulation Must pass Silicon less than 200 PPM Phosphorous less than 1,500 PPM if material < 30% water Phosphorous = 150 PPM if material > 30% - = 70% water Vanadium less than 5 PPM PRIMARY DISPOSAL METHOD: OIL RE-REFINING
B35	Glycols	Ethylene or propylene glycols Minimum yield 25% Must be non hazardous pH 3-11 Flash point greater than 140°F Less than 1 inch solids in drum No pesticides Less than 5 percent oils PCB's non detectable Must be amenable to aqueous treatment Must be compatible with oil and water PRIMARY DISPOSAL METHOD: RECLAMATION
CFL1	Mercury Bulbs For Reclamation	Less than 5 percent broken bulbs Intact 4 foot or 8 foot bulbs Packaged in original bulb boxes or specialty containers Shrink wrapped to pallets No free mercury PRIMARY DISPOSAL METHOD: RECLAMATION
CHBD	PCB Ballasts >50PPM For Reclaim	Must be non-leaking Must be intact Less than 9lbs/ballast <500ppm PCB PRIMARY DISPODAL METHOD: RECLAIM
CHBL	PCB Ballasts Or Capacitors For Landfill	PRIMARY DISPOSAL METHOD: INCINERATION Less than three pounds of PCB's in each unit Less than 9 pounds gross weight Must be non-leaking Must be intact

CNO	Non Hazardous Solid	PRIMARY DISPOSAL METHOD: NON HAZARDOUS LANDFILL Non-pourable at 70°F No free liquid Must be able to pass (paint filter/penetration) tests Must be able to be landfilled Biodegrade-able absorbents will be stabilized prior to land No herbicide, pesticides, or cyanides Source of PCB < 50 ppm PRIMARY DISPOSAL METHOD: NON HAZARDOUS LANDFILL (blank) (blank) **********
		No free liquid Non-hazardous Must be biodegradable No PCB pH – 2.1 to 12.4
CNOS	Non Hazardous Semi-Solids	PRIMARY DISPOSAL METHOD: RECLAMATION
		Must be able to be landfilled No herbicides, pesticides, or cyanides Source of PCB < 50 ppm Flash point over 140°F PRIMARY DISPOSAL METHOD: NON HAZARDOUS LANDFILL (blank) (blank) **********
		Non-hazardous Must be biodegradable No PCB pH – 2.1 to 12.4
COF	Oil Filters For Reclamation	PRIMARY DISPOSAL METHOD:NON HAZARDOUS LANDFILL Oil filters for reclamation
D80B	Non PCB Ballasts And Ballasts <50PPM For Reclaim	PRIMARY DISPOSAL METHOD: INCINERATION
		Non PCB ballasts or ballasts with less than 50ppm PCB
D80L	Non-PCB Articles For Landfill	PRIMARY DISPOSAL METHOD: DESTRUCTION INCINERATION
FB1	Liquid For Fuel	
		Example: paint thinner, solvents Less than 4 inches of dispersible sludge Less than 5 percent halogens/sulfur Source of PCB < 50 ppm Greater than 10,000 BTU's No pesticides

		No debris Low viscosity (e.g. thinners) Must not set-up with water or with organic solvents PRIMARY DISPOSAL METHOD: FUEL BLENDING/INCINERATION * BULK SPECIFICATIONS: Less than 5 percent water Greater than 10,000 BTU Less than 2 percent halogens Source of PCB < 50 ppm Must be compatible with fuel stock and storage tanks
FB5	Solid Fuel Not Process-able (Contains debris)	PRIMARY DISPOSAL METHOD: FUEL BLENDING Example: Rags, filters, PPE, organic absorbent No large metal pieces (rebar) No metal fines or powders Less than 10 percent halogens or sulfur Source of PCB < 50 ppm Mercury limited to 10 ppm maximum Greater than 5,000 BTUs/lb Contain 25 percent or more burn-able debris or absorbent No cyanides / sulfides No Oxidizers No closed containers No tacky material No pesticides Less than 20% free liquid
LBBGB	Small Sealed Cell Batteries and Portable Electronics for Rec	Refer to LP guidelines for specific material (US): (blank) -No Hazardous Waste allowed -Must be acceptable for shipment via FedEx Ground -Batteries must be intact -Batteries must be protected from short-circuiting -If tape is used, clear packing tape is suggested -Limit of 43 pounds per box -Limit of 10 pounds of Primary Lithium per box -No liquids allowed -No primary Lithium batteries with > 25 grams of lithium -Follow instructions included with box. (blank) (CAN): (blank) -No Hazardous Waste allowed -Must be acceptable for shipment via Purolator Ground -Batteries must be intact -Batteries must be protected from short-circuiting -If tape is used, clear packing tape is suggested -Limit of 19.54 KG per box

		-No liquids allowed -No primary Lithium batteries with > 25 grams of lithium
LBD1	Alkaline Dry Cell Batteries For Reclamation (Mercury Free)	Refer to LP guidelines for additional information Flashlight and alkaline batteries that are mercury free alkaline, carbon zinc
LBD2	Ni-Cad Batteries Wet Or Dry For Reclamation	PRIMARY DISPOSAL METHOD: RECLAMATION Wet or dry cell nickel cadmium batteries
LCCRA	Labpack Acid & Acid Compatibles For Incineration	PRIMARY DISPOSAL METHOD: INCINERATION Example:arsenic acid, hydrochloric acid/freon waste, etc. pH between 0-7 Container size max - 5 gal PCB's less than 50 ppm, inorganic mercury less than 260 ppm
LCCRB	Labpack Basic & Basic Compatibles For Incineration	Refer to LP guidelines for additional information Example:cyclohexyl amine, thiourea, nickel cyanide, etc. pH between 7-14 Container size max - 5 gal PCB's less than 50 ppm/inorganic mercury less than 260 PPM
LCCRC	Labpack Organics For Incineration	Refer to LP guidelines for additional information Example:butyric acid, aldrin, endosulfan, etc. Container size max - 5 gal Flash point greater than 140°F PCB's less than 50 ppm/inorganic mercury less than 260 PPM Refer to LP guidelines for additional information
LCCRD	Labpack Flammables For Incineration	(blank) Example:allyl bromide, pyrrolidone, isocyanates, etc. Container size max - 5 gal Flash point less than 140°F PCB's less than 50 ppm/inorganic mercury less than 260 PPM
LCCRO	Labpack Oxidizers For Incineration	Refer to LP guidelines for additional information Example: lead peroxide, hydrogen peroxide, etc. Container size max - 5 gal PCB's less than 50 ppm/mercury less than 260 PPM
LCCRQ	Aerosols For Incineration	PRIMARY DISPOSAL METHOD: INCINERATION Example:spray paints, pesticide aerosols, freon aerosols,etc No cylinders or lecture bottles No F027 aerosols Refer to LP guidelines for additional information

LCHG1	Elemental Mercury for Treatment/Stabilization	Lead aprons Example: Mercury Metallic
LCHG2	Labpack Mercury Devices / Mercury Debris for Retort	Out of country disposal must be approved Examples:mercury thermometers, contaminated debris with metallic mercury Check acceptable materials list
LCY1	Propane Cylinders For Recycling	Refer to LP guidelines for additional information Refer to LP guidelines for additional information
LCY10	Highly Reactive Or Toxic Cylinders For Disposal	Greater than 5% solids maybe subject to surcharge
LCY11	Unknown Cylinders For Disposal	Greater than 5% solids maybe subject to surcharge
LCY12	Special Approval Cylinders For Disposal	Greater than 5% solids maybe subject to surcharge Unknown cylinder samples
LCY13	Acetylene Cylinders For Recycling	Greater than 5% solids maybe subject to surcharge corrosive gases for in-house treatment ammonia boron trichloride boron trifluoride chlorine hydrogen bromide hydrogen chloride sulfur dioxide
LFB1	Labpack For Fuels Blending	Example: Acetone, Oil, Glycols, Paint Thinner, etc. pH between 4-10 & must be pourable Less than 260 ppm mercury Less than 50 ppm PCB's No Pesticides/Herbicides/Debris No malodorous compounds (e.g. mercaptans, amines, etc.) Container Size - 8 oz - 5 gal Refer to LP guidelines for additional information
LPTN	Non-Processable Paint & Paint Related Mtrl For Incineration	Refer to LP guidelines for additional information PAINTS NOT SUITABLE FOR COMPACTION FOR DESTRUCTION INCINERATION glass containers are acceptable no pesticide like cresoste No PCB
LPTP	Processable Paint & Paint Related Mtrl For Fuel/Incineration	D001/D004-D008, D010, D011

		PAINTS SUITABLE FOR PROCESSING AT A CHI FACILITY no glass containers no solid paints No PCB no pesticides like creosote
LRCT	Labpack Reactives For Incineration	D001/D004-D008, D010, D011 Example: organic peroxides, water reactives, etc. Container size limitations vary by specific waste type Source of PCB < 50 ppm Mercury less than 260 PPM Packaged Per Lab Pack Guidelines
LRCTA	Labpack Reactive Acid & Acid Compatibles For Incineration	PRIMARY DISPOSAL METHOD: INCINERATION Example: aluminum chloride, phosphorus pentoxide, etc. Container size limitations vary by specific waste type Source of PCB < 50 ppm Mercury less than 260 PPM Packaged Per Lab Pack Guidelines
LRCTB	Labpack Reactive Basic & Basic Compatibles For Incineration	PRIMARY DISPOSAL METHOD: INCINERATION Example: azides, ammonium sulfide, dinitroaniline, etc. Container size limitations vary by specific waste type Source of PCB < 50 ppm Mercury less than 260 PPM Packaged Per Lab Pack Guidelines
LRCTC	Labpack Reactive Organics For Incineration	PRIMARY DISPOSAL METHOD: INCINERATION Example: non-flammable organic silanes, dinitrobenzoic acid Container size limitations vary by specific waste type Source of PCB < 50 ppm Mercury less than 260 PPM Packaged Per Lab Pack Guidelines
LRCTD	Labpack Reactive Flammables For Incineration	PRIMARY DISPOSAL METHOD: INCINERATION Example: picric acid, sodium hydrosulfite, etc Container size limitations vary by specific waste type Source of PCB < 50 ppm Mercury less than 260 PPM Packaged Per Lab Pack Guidelines
LRCTO	Labpack Reactive Oxidizers For Incineration	PRIMARY DISPOSAL METHOD: INCINERATION Example: organic peroxides, perchloric acid, etc. Container size limitations vary by specific waste type Source of PCB < 50 ppm Mercury less than 260 PPM

Emergency Response Rate Sheets

Emergency Response Rate Sheet

Region: US NORTHWEST

Rate Category Type: Emergency Response Rates

Currency Code: USD

Description	UOM	Price (USD)
FIELD PERSONNEL		
Field Technician	HR	$61.00
Equipment Operator	HR	$78.00
Foreman	HR	$78.00
Chemist	HR	$99.00
Supervisor	HR	$106.00
Lead Chemist	HR	$126.00
Project Manager	HR	$130.00
Site Safety Officer	HR	$146.00
TECHNICAL PERSONNEL		
Field Inspector	HR	$84.00
Mechanic	HR	$103.00
Welder	HR	$103.00
Field Engineer/Scientist/Geologist	HR	$110.00
Senior Engineer/Scientist/Geologist	HR	$124.00
Professional Engineer/LSP	HR	$130.00
ADMINISTRATIVE/MANAGERIAL PERSONNEL		
On Site Administration	HR	$71.00
Emergency Response Coordinator	HR	$135.00
General Manager	HR	$175.00
PER DIEM / SUBSISTENCE		
Per Diem / Subsistence	DAY	$211.00
HEAVY DUTY TRUCKS		
Box Truck	HR	$70.00
Dump Truck, 10 Wheel	HR	$85.00
High Powered Vacuum Truck/Cusco	HR	$161.00

Emergency Response Rate Sheet

Description	UOM	Price (USD)
Rolloff Straightjob	HR	$84.00
Rolloff Two Can Trailer	HR	$87.00
Skid Mounted Vacuum System	HR	$70.00
Tractor Only, No Trailer	HR	$65.00
Tractor w/Box Van	HR	$84.00
Tractor w/Dump Trailer	HR	$91.00
Tractor w/Flatbed/Lowbed Trailer	HR	$87.00
Tractor w/Liquid Transporter	HR	$100.00
Tractor w/Rolloff Trailer	HR	$87.00
Tractor w/Vacuum Trailer	HR	$106.00
Vactor with Jet Rodder	HR	$161.00
Vacuum Truck, Straight	HR	$87.00
Wet/Dry High Powered Vacuum Truck/Guzzler	HR	$161.00
HYDRO EXCAVATION SERVICES		
Hydrovac - Single Drive with Operator & Helper	HR	$271.00
Hydrovac - Tandem Drive with Operator & Helper	HR	$300.00
Hydrovac - Tri-Drive with Operator & Helper	HR	$300.00
Working Boiler / Heating Charge	HR	$65.00
LIGHT DUTY TRUCK/RESPONSE EQUIPMENT		
Emergency Response Van	HR	$87.00
Pickup/Van/Car/Crew Cab	HR	$22.00
Spill Trailer	DAY	$295.00
Stake Body/Utility Truck	HR	$38.00
Utility / Support Trailer	DAY	$201.00
PRESSURE WASHING EQUIPMENT		
1000psi Pressure Washer	DAY	$103.00
2-D Rotating Nozzle - 10K	HR	$67.00
2000psi Pressure Washer	DAY	$112.00
2500psi Hot Water Pressure Washer	DAY	$351.00
2500psi Pressure Washer	DAY	$122.00
3000psi Hot Water Pressure Washer	DAY	$387.00

"Confidential | Proprietary Business Information - Do Not Disclose To Any Third-Party Without Written Consent of Clean Harbors."

Description	UOM	Price (USD)
High Pressure Blaster - 10,000 PSI 30-40 GPM (350, 450)	HR	$73.00
High Pressure Blaster - 40,000 PSI 6 GPM - UHP Pump (200) HP	HR	$170.00
High Pressure Blaster - 40,000 PSI 7-12 GPM - UHP Pump (305)	HR	$170.00
High Pressure Blaster -20,000 PSI 0-20 GPM - HP Pump (305)	HR	$144.00
Nozzle - 3D Rotating - 10K, 20-80 GPM	HR	$88.00
PUMPING/TRANSFERRING PUMPS		
Drum Loader	DAY	$177.00
Pump - Centrifugal, 2 in	DAY	$113.00
Pump - Diesel Lister, 3 in	DAY	$159.00
Pump - Double Diaphragm, 1 in	DAY	$100.00
Pump - Double Diaphragm, 2 in	DAY	$141.00
Pump - Double Diaphragm, 2 in, Chemical	DAY	$187.00
Pump - Double Diaphragm, 3 in	DAY	$159.00
Pump - Double Diaphragm, 3 in, Chemical	DAY	$207.00
Pump - Double Diaphragm, 4 in	DAY	$218.00
Pump - Electric Drum	DAY	$112.00
Pump - Electric Submersible, 2 in	DAY	$89.00
Pump - Electric Submersible, 3 in	DAY	$112.00
Pump - Electric Submersible, 4 in	DAY	$164.00
Pump - Hand	DAY	$36.00
Pump - Hydraulic Transfer, 4 in	HR	$36.00
Pump - Hydraulic Transfer, 6 in	HR	$270.00
Pump - Trash, 4 in	DAY	$294.00
MARINE RESPONSE EQUIPMENT		
Airboat, Single Engine	DAY	$1236.00
Airboat, Twin Engine	DAY	$3605.00
Boat/Workskiff without Motor	DAY	$146.00
Brush Skimmer	DAY	$824.00
Containment Boom - 10" Per Foot Per Day	FT	$1.83
Containment Boom - 18" Per Foot Per Day	FT	$2.05
Containment Boom - 24" Per Foot Per Day	FT	$2.65

"Confidential | Proprietary Business Information - Do Not Disclose To Any Third-Party Without Written Consent of Clean Harbors."

Emergency Response Rate Sheet

Description	UOM	Price (USD)
Containment Boom - 36" Per Foot Per Day	FT	$2.97
Drum Skimmer (24in-36in)	DAY	$646.00
Drum Skimmer, Double Barrel	DAY	$979.00
Hydraulic Power Pack for Skimmer	DAY	$227.00
Landing Craft (LCM), 26ft-29ft	DAY	$979.00
Landing Craft (LCM), 30ft-34ft	DAY	$1236.00
Landing Craft (LCM), 35ft-45ft	DAY	$1854.00
PFD Life Vest	DAY	$27.00
PFD Survival Suit / Cold Weather Survival Work Suits	DAY	$81.00
Power Barge Boat, 26ft-30ft	DAY	$1133.00
Power Barge Boat, 30ft-42ft	DAY	$2060.00
Power Workboat, Fast Response, 12-14ft	DAY	$307.00
Power Workboat, Fast Response, 15-17ft	DAY	$367.00
Power Workboat, Fast Response, 18-22ft	DAY	$614.00
Power Workboat, Fast Response, 23-26ft	DAY	$773.00
Power Workboat, Fast Response, 27-36ft	DAY	$979.00
Rigid Hull Inflatable (RIB) (18ft-22ft)	DAY	$809.00
Rope Mop - 4" (Per Foot)	FT	$31.00
Rope Mop - 9" (Per Foot)	FT	$39.00
Rotating Disc Skimmer Unit	DAY	$840.00
Skim Pack Skimmer	DAY	$167.00
Skimmer - C24H Hydraulically Powered Rope Mop Wringer	DAY	$670.00
Skimmer - C29H Hydraulically Powered Rope Mop Wringer	DAY	$901.00
Skimmer - CV-46H Hydraulically powered Vertical Mop Wringer	DAY	$798.00
Skimmer, Duck Bill	DAY	$29.00
Skimming Vessel (Marco/JBF or Equivalent) 28-30ft	DAY	$5639.00
Skimming Vessel Belt Drive Replacement	EA	$1341.00
Weir Skimmer Unit	DAY	$178.00
FIELD ANALYTICAL		
4 Gas/5 Gas Meter	DAY	$183.00
Bailer & Sampling Equipment	DAY	$62.00
Draeger Air Monitoring Pump	DAY	$81.00
Explosion/Oxygen Meter	DAY	$130.00

Emergency Response Rate Sheet

Description	UOM	Price (USD)
Geiger Counter Meter	DAY	$162.00
Hydrogen Cyanide Meter	DAY	$134.00
Interface Probe	DAY	$130.00
Lumex RA915+ Mercury Vapor Analyzer	DAY	$528.00
Mercury Vapor Analyzer	DAY	$270.00
Particulate Meter, Mini Ram or equivalent	DAY	$130.00
Personal Air Pump Meter	DAY	$62.00
pH Meter	DAY	$62.00
PID Meter	DAY	$130.00
Well Purging/Sampling Pump	DAY	$62.00
HOSES/PIPE		
Hose - Chemical, 2 in X 20 ft	DAY	$38.00
Hose - Chemical, 3 in X 20 ft	DAY	$53.00
Hose - Chemical, 4 in X 20 ft	DAY	$69.00
Hose - Flex, 4 in, per ft	FT	$2.83
Hose - Flex, 6 in, per ft	FT	$3.61
Hose - Lay Flat, 2 in X 25ft	DAY	$28.00
Hose - Lay Flat, 4 in X 25 ft	DAY	$62.00
Hose - Lay Flat, 6 in X 25 ft	DAY	$81.00
Hose - Suction, 2 in X 25 ft	DAY	$32.00
Hose - Suction, 3 in X 25 ft	DAY	$43.00
Hose - Suction, 4 in X 25 ft	DAY	$62.00
Hose - Suction, 6 in X 25 ft	DAY	$90.00
Wash Hose, 1/2in x 50ft	DAY	$18.00
EARTH MOVING EQUIPMENT		
Backhoe Loader, 1 Yard Bucket	HR	$81.00
Bobcat Loader/Mini Excavator	HR	$80.00
Excavator, 20-30 Ton	HR	$103.00
Fork Attachment for Bobcat Loader	DAY	$60.00
Loader, 2-3 Yard Bucket	HR	$79.00
Mini Excavator	HR	$80.00
Sweeper Attachment for Bobcat Loader	DAY	$146.00

"Confidential | Proprietary Business Information - Do Not Disclose To Any Third-Party Without Written Consent of Clean Harbors."

NOTES:

1) All labor, equipment, materials and services outlined in this Schedule of Rates will be invoiced at the rates listed, regardless of Clean Harbors' method of acquisition. Any items not described in this Schedule of Rates which are acquired by Clean Harbors shall be invoiced at Clean Harbors' cost plus a markup of thirty-five percent (35%). (Unless otherwise specified, these rates are not valid for response to Infectious Agents/Biologicals.) The Schedule of Rates includes the cost of Clean Harbors' basic medical monitoring program. Any special medical monitoring required by the client or the nature of the work will be added to the project scope and the client will invoiced at cost plus a markup listed above.
2) Lodging and subsistence for Clean Harbors personnel and our subcontractors in the field are included in a per diem charge per person per day when working more than 30 miles from the employee's normal operations center and when overnight accommodations are required. The rate is outlined in the labor section of this document. When overnight accommodations are not required but work exceeds 12 hours, $40.00 per day per person may apply to cover meals and incidentals.
3) At its sole discretion, Clean Harbors will determine the level of protection required for each project. Level A, B, C or D personal protection and safety packages will be invoiced at the rates shown in the Schedule of Rates.
4) Clean Harbors' personnel and equipment will be charged portal-to-portal (mobilization and demobilization included). Services provided prior, during and/or subsequent to actual project site activities will also be charged at the Hourly Rate. This includes, but is not limited to, time taken by personnel to decontaminate and re-don protective clothing and equipment that is billed as part of the project.
5) Clean Harbors' normal employee workday is 7:00 am to 3:30 pm, Monday through Friday. Other work hours must be agreed to in writing in advance. No more than eight (8) hours of straight time will be billed for one person for one day. All time will be based upon a 24 hour day.
6) All hours worked in excess of eight (8) hours in the normal workday, as described above, as well as all hours worked all day Saturday are considered overtime and will be billed at 1.5 times the applicable straight time rate for all billable personnel.
7) Sunday and Holidays are considered premium time and will be billed at 2.0 times the applicable straight time rate for all billable personnel. Holidays are the legally observed United States Federal Holidays plus the day after Thanksgiving. When local laws or regulations recognize additional holidays or when local laws or regulations define premium hours in excess of this definition, Clean Harbors will invoice in accordance with local laws or regulations.
8) All emergency call-outs (i.e., less than 24-hour notice) will be subject to a minimum four (4) hour response charge or $2000.00 minimum charge, whichever is greater. Minimum charges do not apply to Transportation and Disposal.
9) Charges for Safety Plans are assessed on all projects involving OSHA regulated substances or when required by the Customer or other Agency. In some instances a Site Safety Officer charge will apply per hour to create and administer the Safety Plan.
10) A variable Energy and Security Recovery Fee (that fluctuates with the DOE national average diesel price), will be applied to the total invoice, excluding sales tax.
11) Unless specifically notated, these rates do not apply to any projects with Prevailing Wage requirements. Any Prevailing Wage rates will be negotiated on a case-by-case basis.
12) Equipment billed on an hourly basis will be billed a minimum of four hours upon activation. For equipment with only Daily Rates, a day will be charged up to 12 hours. No more than 2 Daily Rates will apply per calendar day. For boats and other marine equipment, Daily Rates will apply regardless of the hours used per day.
13) Unless specifically notated in the equipment description, all equipment rates are un-operated.
14) All waste disposal from project and or response activities will be charged additionally to the rates lists herein. A Waste Document Preparation Fee of $125 per day will apply to any work generating waste. The fee includes labels, manifests/bills of lading and profiles.
15) Standby charges will be negotiated on a case-by-case basis.
16) Clean Harbors guarantees to hold prices firm for 60 days.
