What is the PaperPros Program & What Recycling Is Included With It?

PaperPros is our document destruction and document imaging service. We have over 800 regularly serviced document destruction customers throughout Las Vegas including Caesars Entertainment, Southern Nevada Health District, and the city and state government offices. At our facility, we shred over 15 tons of paper each day. Once we shred this paper, it is baled and sent to GP Harmon, where it is fully recycled into new paper products.

We also convert paper documents into digital format allowing these documents to then be shredded and recycled. We image all the food and beverage receipts for MGM and Caesars Entertainment. We also image for medical offices, property management groups, and more. Each month, we process and image around 1.5 to two million documents.
