Subject: North Tree Fire International Proposal in Response to
State of Nevada RFP#1995

Dear Ms. Smith,

North Tree Fire International is pleased to submit its proposal in response to the State of Nevada's RFP #1995 for Fuels Reduction Services. North Tree Fire International began in 1986 with a single dozer contracted to the California Department of Forestry and, over the years, has expanded its services and equipment to encompass hazardous fuels reduction projects. NTFI's Fuels Management Program offers a full range of hazardous fuels reduction services, with an emphasis on mechanical treatment. NTFI's Fuels Management professionals bring over 75 years of combined experience and meet all of the NWCG qualifications to assist in the development of your fuels plan. We can provide you with the personnel and equipment that best meets your needs.

We look forward to this opportunity to continue providing services and equipment to the State of Nevada.

Sincerely,

Michael D. Armstrong
President & CEO

State Documents

SUBJECT: Amendment No. 1 to Request for Proposal No. 1995
DATE OF AMENDMENT: August 31, 2012
DATE OF RFP RELEASE: August 15, 2012
DATE AND TIME OF OPENING: September 19, 2012 @ 2:00 P.M.
AGENCY CONTACT: Teri Smith, Procurement Staff Member

The following shall be a part of RFP No. **1995** for **Fire Fuels Reduction Services**. If a vendor has already returned a proposal and any of the information provided below changes that proposal, please submit the changes along with this amendment. You need not re-submit an entire proposal prior to the opening date and time.

1. Can you provide the prior pricing for the contractors who were awarded this contract?

All of the documents can be downloaded from our website at http://purchasing.state.nv.us/Fire_Fuels/Fuels.htm

Pricing is contained in the attachments to the contracts labeled Contractor's Response.

2. RFP Section 1.1.3: There are 9 different scopes of work identified in section 1.1.2. If, for instance, vendor wants to bid on 3 different scopes of work, must vendor submit 3 separate packages, with each addressing a particular scope of work, and including the rest of the redundant information that will be the same in each master binder? Or, is only one package required (with correlating copies) for each vendor, regardless of the number of scopes of work on which the vendor bids?

Section 1.1 of the RFP is Goals and Objectives, and is a summary of the scopes of work. The scopes of work are detailed in Section 3 of the RFP. Only one package is required from each vendor (with correlating copies). The individual scopes of work that the vendor is responding to should be separated by tabs in the appropriate section of the response (as per section 9.2.2.6 of the RFP).

3. What are the "minimum requirements that the successful bidder must meet" as referenced in NRS 333.335(3)(b) and NRS 333.311?

Minimum requirements as are detailed in the RFP.

4. How can we obtain from you samples of what you consider to be “proper” proposals and/or winning proposals that we could use to assist us in preparing our proposal?

All statewide contracts are posted on our website at http://purchasing.state.nv.us/services_index.htm or you can submit a public records request for specific contract information.

5. Are there any other guidelines or written materials that the State would recommend in helping a vendor prepare the proposal?

Please visit our website at http://purchasing.state.nv.us/pur_info/tipsrfp.htm for 10 Tips for a Successful RFP Response.

6. In section 3.3.2.2, the State describes Brush masticators as “light, medium and heavy duty”. Please give more guidance on what falls under each of those qualifications, i.e. what size equipment and/or horsepower range falls within each of those designations.

A light masticator is defined as a wheeled or tracked vehicle having up to a 150 HP engine capable of supplying simultaneous power to the wheels/tracks and to all hydraulics. The light masticator can be equipped with a hydraulically or PTO operated rotary mastication head or a flail type power head. Both types of masticator must be capable of masticating brush and small trees up to 6 inches in diameter.

A medium masticator is defined as a wheeled or tracked vehicle having between 150 and 350 HP engine capable of supplying simultaneous power to drive components, all hydraulics, and to the masticator head. The medium masticator can be equipped with a hydraulically operated rotary masticator head or flail type power head. Both types of power heads must be capable of masticating brush and trees up to 12 inches in diameter.

A heavy masticator is defined as a wheeled or traced vehicle having between 350 and 600+ HP engine capable of supplying simultaneous power to the wheels/tracks and to all hydraulics. The heavy masticator can be equipped with a hydraulically operated rotary masticator head or a flail type power head. A heavy masticator is fully capable of masticating trees up to 20 inches in diameter and virtually all forest and range shrubs found in Nevada.

All masticating equipment will be equipped with a Roll-Over Protection System and a Falling Object Protection System.

7. In section 3.3.2.2, the State describes Brush masticators as “light, medium and heavy duty”. Does vendor decide which mastication equipment will be used on each job? What factors does the State consider in the selection of which mastication equipment to use?

The vendor can make recommendations based on past experiences in different terrains and job specifics. If the state agency requesting bids want a specific type of masticator, that will be specified in each individual project bid. The State will then consider such factors as fuel type, topography, soil impact, proximity to water

sources, and others as specified in each individual project plan when bidding for equipment.

8. Are there any special technical formatting directions for the CDs?

No. The CDs must contain the information as outlined in Section 9 of the RFP.

9. Section 9.2.2.6 says that, "Written responses must be in bold/italics and placed immediately following the applicable RFP question, statement and/or section." What is the response information the State is looking for? There are no questions; rather just defined scopes listed. So, what "response" information is desired there?

Section 9.2.2.6 is referring to the vendor's response to the Scope of Work identified in Section 3 of the RFP. Vendors must acknowledge each question, statement and/or section in some way. A response to each question, statement and/or section is important because this is where the vendor will demonstrate and be scored on capabilities, experience, etc., for each specific scope as outlined.

ALL ELSE REMAINS THE SAME FOR RFP 1995.

Vendor shall sign and return this amendment with proposal submitted.

RFP 1995 Amendment 1

This document must be submitted in the "State Documents" section/tab of vendors' technical proposal

ATTACHMENT A – CONFIDENTIALITY AND CERTIFICATION OF INDEMNIFICATION

Submitted proposals, which are marked “confidential” in their entirety, or those in which a significant portion of the submitted proposal is marked “confidential” **will not** be accepted by the State of Nevada. Pursuant to NRS 333.333, only specific parts of the proposal may be labeled a “trade secret” as defined in NRS 600A.030(5). All proposals are confidential until the contract is awarded; at which time, both successful and unsuccessful vendors’ technical and cost proposals become public information.

In accordance with the Submittal Instructions of this RFP, vendors are requested to submit confidential information in separate binders marked “**Part I B Confidential Technical**” and “**Part III Confidential Financial**”.

The State will not be responsible for any information contained within the proposal. Should vendors not comply with the labeling and packing requirements, proposals will be released as submitted. In the event a governing board acts as the final authority, there may be public discussion regarding the submitted proposals that will be in an open meeting format, the proposals will remain confidential.

By signing below, I understand it is my responsibility as the vendor to act in protection of the labeled information and agree to defend and indemnify the State of Nevada for honoring such designation. I duly realize failure to so act will constitute a complete waiver and all submitted information will become public information; additionally, failure to label any information that is released by the State shall constitute a complete waiver of any and all claims for damages caused by the release of the information.

This proposal contains Confidential Information, Trade Secrets and/or Proprietary information as defined in *Section 2 “ACRONYMS/DEFINITIONS.”*

Please initial the appropriate response in the boxes below and provide the justification for confidential status.

Part I B – Confidential Technical Information			
YES		NO	X
Justification for Confidential Status			

A Public Records CD has been included for the Technical and Cost Proposal

This document must be submitted in Tab IV of vendor’s technical proposal

ATTACHMENT C – VENDOR CERTIFICATIONS

Vendor agrees and will comply with the following:

- (1) Any and all prices that may be charged under the terms of the contract do not and will not violate any existing federal, State or municipal laws or regulations concerning discrimination and/or price fixing. The vendor agrees to indemnify, exonerate and hold the State harmless from liability for any such violation now and throughout the term of the contract.
- (2) All proposed capabilities can be demonstrated by the vendor.
- (3) The price(s) and amount of this proposal have been arrived at independently and without consultation, communication, agreement or disclosure with or to any other contractor, vendor or potential vendor.
- (4) All proposal terms, including prices, will remain in effect for a minimum of 180 days after the proposal due date. In the case of the awarded vendor, all proposal terms, including prices, will remain in effect throughout the contract negotiation process.
- (5) No attempt has been made at any time to induce any firm or person to refrain from proposing or to submit a proposal higher than this proposal, or to submit any intentionally high or noncompetitive proposal. All proposals must be made in good faith and without collusion.
- (6) All conditions and provisions of this RFP are deemed to be accepted by the vendor and incorporated by reference in the proposal, except such conditions and provisions that the vendor expressly excludes in the proposal. Any exclusion must be in writing and included in the proposal at the time of submission.
- (7) Each vendor must disclose any existing or potential conflict of interest relative to the performance of the contractual services resulting from this RFP. Any such relationship that might be perceived or represented as a conflict should be disclosed. By submitting a proposal in response to this RFP, vendors affirm that they have not given, nor intend to give at any time hereafter, any economic opportunity, future employment, gift, loan, gratuity, special discount, trip, favor, or service to a public servant or any employee or representative of same, in connection with this procurement. Any attempt to intentionally or unintentionally conceal or obfuscate a conflict of interest will automatically result in the disqualification of a vendor's proposal. An award will not be made where a conflict of interest exists. The State will determine whether a conflict of interest exists and whether it may reflect negatively on the State's selection of a vendor. The State reserves the right to disqualify any vendor on the grounds of actual or apparent conflict of interest.
- (8) All employees assigned to the project are authorized to work in this country.
- (9) The company has a written equal opportunity policy that does not discriminate in employment practices with regard to race, color, national origin, physical condition, creed, religion, age, sex, marital status, sexual orientation, developmental disability or handicap.
- (10) The company has a written policy regarding compliance for maintaining a drug-free workplace.
- (11) Vendor understands and acknowledges that the representations within their proposal are material and important, and will be relied on by the State in evaluation of the proposal. Any vendor misrepresentations shall be treated as fraudulent concealment from the State of the true facts relating to the proposal.
- (12) Vendor must certify that any and all subcontractors comply with Sections 7, 8, 9, and 10, above.
- (13) The proposal must be signed by the individual(s) legally authorized to bind the vendor per NRS 333.337.

Scope of Work

3.3 Forestry Equipment Specification

- 3.3.1 Vendors must indicate in their response the manufacturer and model of available equipment, the capabilities of the equipment, and the operator/crews available to man the equipment.

Please see the Cost Proposal for the manufacturers, models and capabilities of the equipment available; and Table VIII Staff Resumes for the operators / crews available to man the equipment.

- 3.3.2 Equipment to be utilized on fuels management and/or forest health projects may include, but is not necessarily limited to:

3.3.2.1 Tree shears

3.3.2.2 Brush masticators – light, medium, and heavy duty

3.3.2.3 Feller bunchers

3.3.2.4 Forwarders

3.3.2.5 Cut to length operators

3.3.2.6 Heavy cranes

3.3.2.7 Wheeled skidders

3.3.2.8 Tracked skidders

3.3.2.9 Tub grinders

3.3.2.10 Chippers

- 3.3.3 Awarded vendor will be required to supply operator(s), equipment transport, and if applicable, water for fire suppression/dust abatement.

- 3.3.4 General project specifications (project specific specifications will be described in a scope of work prior to commencement of each project):

- 3.3.4.1 All vegetation and slash indentified for treatment shall be cut at a maximum of six (6) inches above the normal plane of ground (measured at stump height on uphill side)
- 3.3.4.2 No slash and other vegetative debris shall be more than twelve (12) inches deep as measured from the ground level
- 3.3.4.3 No damage to crop trees as a result of contract operations is permitted
- 3.3.4.4 All cut vegetation shall be kept within unit boundaries
- 3.3.4.5 Any cut vegetation falling into ditches, roads, road banks, trails or adjacent units shall immediately be removed by the end of the work day
- 3.3.4.6 No masticated or cut material shall lean against or be suspended by leave trees
- 3.3.4.7 Vegetation that is within two (2) feet vertical or horizontal of any obstacle such as large rocks or fences will not require treatment
- 3.3.4.8 All boles or pieces up to ten (10) inches in diameter shall be masticated
- 3.3.5 Specifications for cut material (slash):
 - 3.3.5.1 Fifty (50) percent shall be less than or equal to six (6) inches in length
 - 3.3.5.2 Forty (40) percent shall be less than or equal to two (2) feet in length
 - 3.3.5.3 Ten (10) percent shall be less than or equal to two (2) to four (4) feet in length

3.7 Ground Seeders/Spreaders Specification

- 3.7.1 Hand and electric broadcast seeders, to consist of a hopper to contain a given volume of seed, a seed propeller that distributes seed over an area in front of the seeder, and a metering lever that provides the ability to control the rate/amount/pounds per unit volume.
- 3.7.2 Metering must be done by determining a set area (usually a square foot frame with square inches marked), adjusting the equipment metering levers to the prescribed seeding rate provided by the State's designee's resource plan, walking and cranking with a manual seeder, or by driving the electric seeder over the set area at the average speed the operator will be traveling, then counting the number of seeds found within the set area. The seeder can then be adjusted up or down to the prescribed seeding rate.
- 3.7.3 Hand seeders will be carried by a field worker and cranked at a steady rate, following determination of actual seeding rate and adjustment to the prescribed rate.
- 3.7.4 Electric seeders will be mounted on a vehicle or an ATV and driven at a set speed and setting, again following a determination of actual seeding rate and adjustment to the prescribed rate.
- 3.7.5 When required by the State designee's resource plan, soil disturbances will be completed, in order to put the broadcast seed in closer contact with the soil. On small sites, this will be accomplished by raking and on larger sites by use of a harrow, tine drag or a chain link drag pulled by an ATV or similar vehicle.
- 3.7.6 In some cases, awarded vendor will be required to broadcast seed over snow, to allow the seed to gradually carry down through the snow pack and eventually deposit on the soil surface with a source of moisture.
- 3.7.7 Awarded vendor must be able to calibrate equipment to meet the prescribed seeding rate.
- 3.7.8 Awarded vendor must have labor available to hand rake small areas and equipment such as rakes, harrows and drags in order to put seed in good contact with the soil.

3.7.9 Awarded vendor must have a certified tree climber for seed collection if requested. Vendors must indicate in their response if they have ISA certification for Tree Worker or Arborist, and detail any experience in this area. This requirement is dependent on the specific project and the area.

Company Background and References

Company Background

North Tree Enterprises, Inc., dba NorthTree Fire International was founded and registered as a California corporation twenty-six years ago by James J. Hill III, who continues to own the company. The company is currently registered in the State of Nevada as a foreign corporation (C22300-2001) and has a Nevada taxpayer identification number 100459829 and active business license.

Our Vision

NorthTree Fire International will provide the spark that ignites changes to meet the natural environment and emergency management challenges globally.

Our Mission

NorthTree Fire International provides the finest service, equipment, and personnel to assist in emergency response, recovery, mitigation, and preservation of our natural environment.

Our Core Values

Integrity: In all of our professional contacts we are completely honest and ethical. We set high standards and achieve these standards by being decisive, courageous, and highly professional.

Adventure: We seek opportunities to dive into the unknown, to explore new ideas and to take risks where rewards for success are great. We approach each new adventure with enthusiasm in our quest for the thrill of success.

Relationships: We are one team, dedicated to interpersonal relationships which are characterized by honesty, loyalty and respect for one another. We support each other fully and are comfortable in the knowledge that we depend upon one another for this support.

Fulfillment: We will realize fulfillment by achieving success.

Commitment: Our dedication to achieving our goals, objectives, and vision, assures successful results because we *Just Focus and Do It!*

NorthTree has a distinguished history as a private wildland fire fighting and emergency response company. Over the past two plus decades, NorthTree helped raise the bar for standards and performance in delivering services to federal, state and local government agencies and private clients.

Fuels Management

http://www.northtreefire.com/land_management/

NorthTree's **Fuels Management** program has provided a full range of hazardous fuels reduction services including prescribed fire and all types of mechanical treatment, large or small over the past 15 years,. NorthTree's fuels management professionals bring over 50 years of combined experience and meet all of the NWCG qualifications to assist in the development of fuels plans. Today, NorthTree's fuels management program focuses on vegetation management and the use of mastication equipment.

NorthTree is designated as a preferred vendor by the U.S. Forest Service and is presently working under an IDIQ, indefinite delivery, and indefinite quantity contract for **Multi-Forest Fuels Reduction** to provide mechanical treatment services. In addition, NTFI developed projects for complete Forest Stewardships that included items such as developing and maintaining riparian zones, wetland redevelopment, road construction, water shed analysis, prescribed fire, harvesting and biomass reduction, mechanical thinning and fuel reduction, Goshawk and Eagle surveys, Spotted Owl monitoring, Air,Water, and Silvicultural monitoring, subsoiling and meadow enhancement, Noxious Weed Control, and saw log removal.

Other Company Services

Engines and Tactical Tenders

NorthTree Fire International was one of the first fire protection contractors in the U.S. to be awarded a National Engine Contract and provided state of the art **Type 6 compressed air foam system engines** staffed with highly experienced and skilled professionals. Our **Tactical Tenders** are a new breed of fire apparatus, combining the firepower of a Type 1 Engine, with the maneuverability of an off road vehicle, 2500 to 4000 gallons of water, CAFS or High Expansion Foam, a crew trained to work in the Urban Interface. And, if they're needed to water roads – they can do that too.

Incident Management Services

http://www.northtreefire.com/incident_management/

Our **Incident Management Support** division encompasses many aspects of Emergency Administration. NorthTree is uniquely capable of supporting large and small scale incidents, in any location with independent power, with mobile units including high speed satellite computers, high speed copiers and large format plotters. Our support staff are qualified to perform just about any support function you would require to manage your incident and are certified in ICS 100, 200, and 300. Our professionals manage the behind-the-scenes business of emergency incidents, providing the high level of professional service NorthTree Fire's clients expect. Experienced in documentation production and management – Incident Action Plans, Damage Assessment Teams, Media Statements, Individual Narratives, and After Action Narrative Reports.

Industrial Support Services

http://www.northtreefire.com/industrial_safety/

NorthTree's **Industrial Services Support** division specializes in Confined Space Standby and Training Programs providing services today throughout California and the west for government and private industry clients. NorthTree's Industrial Support Services include: Confined Space Rescue Standby, Sub Surface Construction Safety, Compliance Evaluations/Observations, Fire Watch-Hot Work Permit Management, Workplace Injury Management, Technical Rescue Training, Project Logistics, Incident/Emergency Management, Hazard Mitigation, Railroad Fire and Standby Operations.

NorthTree Fire International is fully insured and licensed as well as compliant with all Environmental Safety & Health Regulations. All documentation is available for your review at any time.

Our staff consists of active, experienced, off duty emergency service professionals trained to the following levels: Firefighter I & II, Confined Space Entry & Rescue, Hazardous Materials Operations, Incident Command, Basic First Aid & CPR. We also have specialists available in the following areas: Hazardous Materials Technicians & Specialists, Emergency Medical Technicians, Certified Fire, EMT & Confined Space Instructors

Training and Technical Sales

http://www.northtreefire.com/technical_sales/

NorthTree has the capability of providing professional **Fire Service Training** services. Our programs can be custom made to suit the needs of our clients, and range from Live Fire Fighting to Incident Command Programs. Today, our custom built **Mobile Live Fire Trainer** (MLFT) brings the fire to your station, facility, or event. The unit provides the latest technology in propane fired training props that gives the most realistic live fire experience available today. It is environmentally friendly, uses non-toxic smoke, and does not require burning permits or concern for water runoff. This forty-eight foot trailer, with a unique extendable second story, has three burn rooms and five entrances to provide fire fighters a variety of options for attacking fires within the hot fire environment, including a ceiling rollover with flames spreading wall to wall at a depth of two feet. It is our philosophy to provide fire fighters with a hot fire environment that is equal to that found in a typical structure fire, while at the same time maintaining safety as a high priority. Although temperatures may approach 1200 degrees at the ceiling—as they do in actual fires, temperatures at the working level are well within the limits of standard personal protective equipment. The real benefit of the Mobile Live Fire Trainer is the ability to provide safe, consistent, repeatable conditions in the hot fire environment.

Geographical Information Services

GIS Services require state of the art computer technology and technicians capable of transferring that technology to an emergency incident or project. NorthTree Fire International's GIS Division historically provided the latest technology in mobile mapping services during complex emergency events, and landscape analysis support for projects undertaken by our clients. Past projects and assignments have included: Emergency Management Support, Forecasting Natural Hazards Assessment, Wildland Fire Planning, Watershed Analysis, Prescribed Fire Planning, Database Management, Air Quality Regulation, Urban and Town Planning, Computer Science Graphic Design, Oblique Aerial Photography, Damage Assessment, Vegetation Mapping Fuels Inventory Pre Fire Planning, Digital Photogrammetry, and Vegetation Management Projects. NorthTree provided innovative mapping solutions for Incident Management and Burned Area Emergency Rehabilitation (BAER) Teams during major wildland fire incidents throughout the U.S. Our technicians and support units have been on most of the major fires over the past decade. Today, NorthTree can provide these and other GIS services through our NorthTree-trained and experienced partner.

Additionally, NorthTree historically provided: fire planning support to produce Wildland Fire Risk Assessment and Mitigation Strategies to prevent and suppress fire; a research and development division headed up by a full-time ph.D; a communications division specializing in designing, installing and servicing radios, satellite systems specializing in Kenwood, Motorola, Bendix-King, and Orbit One Satellite Phones; aviation support services that included helicopter and heli-base support, rigging, Crash Fire Rescue standby, as well as providing water resources for mobile retardant bases and foam operations.

4. COMPANY BACKGROUND AND REFERENCES

4.1 VENDOR INFORMATION

4.1.1 Vendors must provide a company profile in the table format below.

Question	Response
Company name:	North Tree Enterprises, Inc.
Ownership (sole proprietor, partnership, etc.):	Corporation
State of incorporation:	California
Date of incorporation:	June 5, 1986
# of years in business:	26 Years
List of top officers:	
Location of company headquarters:	4528 A Street Marina, CA 93933
Location(s) of the company offices:	10674 Ramirez Rd. Marysville, CA 95901
Location(s) of the office that will provide the services described in this RFP:	10674 Ramirez Rd. Marysville, CA 95901
Number of employees locally with the expertise to support the requirements identified in this RFP:	6 Local Employees
Number of employees nationally with the expertise to support the requirements in this RFP:	0 Employees Nationally
Location(s) from which employees will be assigned for this project:	10674 Ramirez Rd. Marysville, CA 95901

4.1.2 **Please be advised**, pursuant to NRS 80.010, a corporation organized pursuant to the laws of another state must register with the State of Nevada, Secretary of State’s Office, as a foreign corporation before a contract can be executed between the State of Nevada and the awarded vendor, unless specifically exempted by NRS 80.015.

4.1.3 The selected vendor, prior to doing business in the State of Nevada, must be appropriately licensed by the State of Nevada, Secretary of State’s Office, pursuant to NRS76. Information regarding the Nevada Business License can be located at <http://sos.state.nv.us>.

Question	Response
Nevada Business License Number:	NV20011393615
Legal Entity Name:	North Tree Enterprises, Inc.

Is "Legal Entity Name" the same name as vendor is doing business as?

Yes	X	No	
-----	----------	----	--

If "No", provide explanation.

4.1.4 Vendors are cautioned that some services may contain licensing requirement(s). Vendors shall be proactive in verification of these requirements prior to proposal submittal. Proposals that do not contain the requisite licensure may be deemed non-responsive.

4.1.5 Has the vendor ever been engaged under contract by any State of Nevada agency?

Yes	X	No	
-----	----------	----	--

If "Yes", complete the following table for each State agency for whom the work was performed. Table can be duplicated for each contract being identified.

Question	Response
Name of State agency:	Washoe County Management Services
State agency contact name:	Debi Gonsalves
Dates when services were performed:	January 17, 2012 through May 31, 2012
Type of duties performed:	Mastication
Total dollar value of the contract:	\$154,262.80

4.1.6 Are you now, or have you been within the last two (2) years, an employee of the State of Nevada, or any of its agencies, departments, or divisions?

Yes		No	X
-----	--	----	----------

If "Yes", please explain when the employee is planning to render services, while on annual leave, compensatory time, or on their own time?

If you employ (a) any person who is a current employee of an agency of the State of Nevada, or (b) any person who has been an

employee of an agency of the State of Nevada within the past two (2) years, and if such person will be performing or producing the services which you will be contracted to provide under this contract, you must disclose the identity of each such person in your response to this RFP, and specify the services that each person will be expected to perform.

- 4.1.7 Disclosure of any significant prior or ongoing contract failures, contract breaches, civil or criminal litigation in which the vendor has been alleged to be liable or held liable in a matter involving a contract with the State of Nevada or any other governmental entity. Any pending claim or litigation occurring within the past six (6) years which may adversely affect the vendor’s ability to perform or fulfill its obligations if a contract is awarded as a result of this RFP must also be disclosed.

Does any of the above apply to your company?

Yes		No	X
-----	--	----	----------

If “Yes”, please provide the following information. Table can be duplicated for each issue being identified.

Question	Response	
Date of alleged contract failure or breach:	N/A	
Parties involved:		
Description of the contract failure, contract breach, or litigation, including the products or services involved:		
Amount in controversy:		
Resolution or current status of the dispute:		
If the matter has resulted in a court case:	Court	Case Number
Status of the litigation:		

- 4.1.8 Vendors must review the insurance requirements specified in *Attachment E, Insurance Schedule for RFP 1995*. Does your organization currently have or will your organization be able to provide the insurance requirements as specified in *Attachment E*?

Yes	X	No	
-----	----------	----	--

Any exceptions to the insurance requirements *must* be identified on *Attachment B, Technical Proposal Certification of Compliance with Terms and Conditions of RFP*. In order for any exceptions to the insurance requirements to be considered they must be documented in detail in *Attachment B*. The State will not accept additional exceptions and/or assumptions if submitted after the proposal submission.

Upon contract award, the successful vendor *must* provide the Certificate of Insurance identifying the coverages as specified in *Attachment E, Insurance Schedule for RFP 1995*.

4.1.9 Company background/history and why vendor is qualified to provide the services described in this RFP. Limit response to no more than five (5) pages.

4.1.10 Length of time vendor has been providing services described in this RFP to the public and/or private sector. Please provide a brief description.

4.1.11 Financial information and documentation to be included in Part III, Confidential Financial of vendor's response in accordance with *Section 9.5, Part III – Confidential Financial*.

4.1.11.1 Dun and Bradstreet Number

4.1.11.2 Federal Tax Identification Number

4.1.11.3 The last two (2) years and current year interim:

A. Profit and Loss Statement

B. Balance Statement

4.2 SUBCONTRACTOR INFORMATION

4.2.1 Does this proposal include the use of subcontractors? Check the appropriate response in the table below.

Yes		No	X
-----	--	----	----------

If "Yes", vendor must:

4.2.1.1 Identify specific subcontractors and the specific requirements of this RFP for which each proposed subcontractor will perform services.

4.2.1.2 If any tasks are to be completed by subcontractor(s), vendors must:

- A. Describe the relevant contractual arrangements;
- B. Describe how the work of any subcontractor(s) will be supervised, channels of communication will be maintained and compliance with contract terms assured; and
- C. Describe your previous experience with subcontractor(s).

4.2.1.3 Vendors must describe the methodology, processes and tools utilized for:

- A. Selecting and qualifying appropriate subcontractors for the project/contract;
- B. Ensuring subcontractor compliance with the overall performance objectives for the project;
- C. Ensuring that subcontractor deliverables meet the quality objectives of the project/contract; and
- D. Providing proof of payment to any subcontractor(s) used for this project/contract, if requested by the State. Proposal should include a plan by which, at the State's request, the State will be notified of such payments.

4.2.1.4 Provide the same information for any proposed subcontractors as requested in **Section 4.1, Vendor Information**.

4.2.1.5 Business references as specified in **Section 4.3, Business References** must be provided for any proposed subcontractors.

4.2.1.6 Vendor shall not allow any subcontractor to commence work until all insurance required of the subcontractor is provided to the vendor.

4.2.1.7 Vendor must notify the using agency of the intended use of any subcontractors not identified within their original proposal and provide the information originally requested in the RFP in **Section 4.2, Subcontractor Information**. The vendor must receive agency approval prior to subcontractor commencing work.

4.3 BUSINESS REFERENCES

- 4.3.1 Vendors should provide a minimum of three (3) business references from similar projects performed for private, state and/or large local government clients within the last three (3) years.
- 4.3.2 Vendors must provide the following information for every business reference provided by the vendor and/or subcontractor:

The “Company Name” must be the name of the proposing vendor or the vendor’s proposed subcontractor.

Reference #:	1
