SUBJECT: Amendment 1 to Request for Qualification 3282
DATE OF AMENDMENT: January 20, 2017
DATE OF RFQ RELEASE: January 10, 2017
DATE AND TIME OF OPENING: February 7, 2017
AGENCY CONTACT: Nancy Feser, Procurement Staff Member

The following shall be a part of RFQ 3282 for ***Fire Fuels Reduction and Vegetation Management Services***. If a vendor has already returned a proposal and any of the information provided below changes that proposal, please submit the changes along with this amendment. You need not re-submit an entire proposal prior to the opening date and time.

1. Do you require CD's? or can we use thumb drives?

A thumb drive is acceptable.

2. pg 14 4.3.3 Is the cost for transportation and water to be included in equipment cost?

Yes, these costs should be factored into the bid.

3. pg 15 4.3.6.1 D8 or larger, Is there a horse power and weight requested?
There are many D8's running from 170 hp and up and weights of 50 k to 95 k.

No, As long as the equipment can pull an Ely or smooth chain assembly which is approximately 180 feet in length and weighs approximately 22,000 lbs. – 28,500 lbs. in varied terrain and topographic features including hills, draws in a mountainous setting and capable of mountain seed dribblers we won't dictate the exact type of dozer to be used.

4. pg 17 4.6.1 Is the vender hauling containers or providing containers or both?

Both

5. pg 17 4.6.5 Regarding log trucks - Would they go under this section or other specialized trailers? i.e. hay racks?

Yes, they would fall under hay racks.

6. Will other hauling services be included? i.e. water, log truck, chip truck or other specialized hauling equipment

Yes

7. Page 30/54 Section 10.1.6.4 - Is a 3 ring binder acceptable?

Yes

8. Page 12/54 Section 4.1.91. - Confirming costs are not needed for the response to RFQ.

No, bid/cost will be required on an as needed basis depending on the project.

9. Page 39/54 Section Section 11.2 - How is financial stability determined if financial information (P&L, Balance Sheet) are not required?

Since the projects will be done on an as needed basis, and bids will be requested at that time, the financial stability will not be required as part of the proposal.

10. On pg 4 second paragraph'
What are the boundaries of Northern, Southern, Rural areas?

There are no set boundaries, it is up to the Vendor to identify the areas of the State in which they are willing to operate as stated.

11. On pg 5 - Can the pricing be kept confidential?

No, cost is a matter of public record Per NRS 333, and will be required on a project, by project bases.

ALL ELSE REMAINS THE SAME FOR RFQ 3282.

Vendor shall sign and return this amendment with proposal submitted.

RFQ 3282 Amendment 1

This document must be submitted in the
“State Documents” section/tab of vendors’
technical proposal.

Submitted proposals, which are marked “confidential” in their entirety, or those in which a significant portion of the submitted proposal is marked “confidential” **will not** be accepted by the State of Nevada. Pursuant to NRS 333.333, only specific parts of the proposal may be labeled a “trade secret” as defined in NRS 600A.030(5). All proposals are confidential until the contract is awarded; at which time, both successful and unsuccessful vendors’ technical and cost proposals become public information.

In accordance with the Submittal Instructions of this RFQ, vendors are requested to submit confidential information in separate binders marked “**Part I B Confidential Technical**” and “**Part III Confidential Financial**”.

The State will not be responsible for any information contained within the proposal. Should vendors not comply with the labeling and packing requirements, proposals will be released as submitted. In the event a governing board acts as the final authority, there may be public discussion regarding the submitted proposals that will be in an open meeting format, the proposals will remain confidential.

By signing below, I understand it is my responsibility as the vendor to act in protection of the labeled information and agree to defend and indemnify the State of Nevada for honoring such designation. I duly realize failure to so act will constitute a complete waiver and all submitted information will become public information; additionally, failure to label any information that is released by the State shall constitute a complete waiver of any and all claims for damages caused by the release of the information.

This proposal contains Confidential Information, Trade Secrets and/or Proprietary information as defined in ***Section 2 “ACRONYMS/DEFINITIONS.”***

Please initial the appropriate response in the boxes below and provide the justification for confidential status.

ATTACHMENT I – CERTIFICATION REGARDING LOBBYINGCertification for Contracts, Grants, Loans, and Cooperative Agreements

The undersigned certifies, to the best of his or her knowledge and belief, that:

- (1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
- (2) If any funds other than Federally appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure of Lobbying Activities," in accordance with its instructions.
- (3) The undersigned shall require that the language of this certification be included in the award documents for all sub awards at all tiers (including subcontracts, sub grants, and contracts under grants, loans, and cooperative agreements) and that all sub recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

**ATTACHMENT B – TECHNICAL CERTIFICATION OF COMPLIANCE
WITH TERMS AND CONDITIONS OF RFQ**

I have read, understand and agree to comply with ***all*** the terms and conditions specified in this Request for Qualification.

YES I agree to comply with the terms and conditions specified in this RFQ.

NO I do not agree to comply with the terms and conditions specified in this RFQ.

If the exception and/or assumption require a change in the terms in any section of the RFQ, the contract, or any incorporated documents, vendors ***must*** provide the specific language that is being proposed in the tables below. If vendors do not specify in detail any exceptions and/or assumptions at time of proposal submission, the State will not consider any additional exceptions and/or assumptions during negotiations.

Sierra Peaks Enterprises, LLC

Company Name

Signature

Kurt Dreyer

Print Name

Date

Vendors MUST use the following format. Attach additional sheets if necessary.

EXCEPTION SUMMARY FORM

EXCEPTION #	RFQ SECTION NUMBER	RFQ PAGE NUMBER	EXCEPTION (Complete detail regarding exceptions must be identified)

ASSUMPTION SUMMARY FORM

ASSUMPTION #	RFQ SECTION NUMBER	RFQ PAGE NUMBER	ASSUMPTION (Complete detail regarding assumptions must be identified)

This document must be submitted in Tab V of vendor's technical proposal

3.2 MINIMUM QUALIFICATIONS

It is **mandatory** that each component listed below in the Minimum Qualifications be addressed. Failure to address each component will result in disqualification of the RFQ response. Vendors proposing to receive an award through this RFQ must provide a detailed description of their SOQ, which must include, at a minimum, the following information.

Our qualifications are found in Tabs VII – X.

- 3.2.1 Vendors will be required to have appropriate license(s) and insurance to qualify for all work in this RFQ. Copy of appropriate license(s) must be submitted with proposal; and

Licensing

Both Sierra Peaks Enterprises, LLC and Sierra Fire Fuels LLC possess a business license from the State of Nevada as shown at Tab IV, part F. All equipment operators have driver's license as per and we have a commercial driver whose license image is found at Tab IV.

Insurance

A Certificate of Insurance for Sierra Peaks Enterprises, LLC and Sierra Fire Fuels LLC is under Tab X, in this binder.

- 3.2.2 Vendors may also be required to provide a Performance Security in the form of a Surety Bond, Certificate of Deposit or Treasury Note. This requirement will be on a project by project basis, and will be in an amount up to 100% of the project total.

Upon award of this RFQ and award of the first work project thereunder, Sierra Peaks Enterprises, LLC will obtain Performance Security in the required amount. Our long-time insurance agent Warren Reed can supply this for us, as indicated in the letter image on the next page.

State of Nevada

RE: Sierra Peaks, LLC and Sierra Fuel Reduction, LLC

To whom it may concern,

If Sierra Peaks and Sierra Fuel Reduction are required to obtain a bond for purposes of the State of Nevada contracts, our agency is licensed to acquire such bonds.

If any further questions, please feel free to contact me.

Thank you.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mike Downs', is written over the printed name.

Minimum Technical Qualifications

RESPONSES TO THESE SCOPES OF WORK:

- 4.1 Forest Management Hand Crew Services Specification
 - 4.1.1.1 Fuels reduction
 - 4.1.1.2 Tree thinning
 - 4.1.1.3 Wildlife habitat improvement
- 4.2 Large Tree Removal
 - 4.2.1 Large Tree Removal, all classes
- 4.3 Forestry Equipment Specification
 - 4.3.2.2 Brush Masticators – light, medium, and heavy duty
 - 4.3.2.6 Heavy Cranes
 - 4.3.2.10 Chippers
- 4.9 Road Construction/Maintenance/Rehabilitation
 - 4.9.2.5 Tree Removal

ADDITIONAL RFQ PROVISIONS ADDRESSED:

- 3.4 Project Meetings
- 12.1.6 Warranty

4. SCOPES OF WORK

In order for vendors to qualify for any fire fuels reduction service, proposing vendors must provide evidence of the required employee knowledge and skills through experience (attach resumes and/or CV), as well as a detailed description of services in the scope of work being proposed upon. A minimum of three (3) years' experience in each of the scopes of work being proposed is preferred.

Work is to be performed in a professional manner, with due diligence paid to protecting private property and ensuring a safe working environment for crew members. Equipment and crews must be fully compliant with State and local employer safety and fire prevention codes and ordinances. On-site crew supervision is required to ensure crew safety, as well as an industry accepted level of production. Routine inspections will be conducted to determine quality of work, production levels, and compliance with site protection requirements. Any slash or high stumps that are left will constitute an incomplete job and payment will not be approved until complete;

4.1 Forest Management Hand Crew Services Specification

4.1.1 Vendor(s) who qualify will provide skilled hand crew services to complete forest management-related work, including but not limited to:

- 4.1.1.1 Fuels reduction;
- 4.1.1.2 Tree thinning;
- 4.1.1.3 Wildlife habitat improvement; and

Our Hand crews are equipped with all the required tooling for any prescribed fuel reduction, tree thinning, and wildlife habitat improvement projects. Sierra Fire Fuels has a full complement of chainsaws ranging from Stihl MS 362's, Stihl MS 461's, and Stihl MS 661's, which cover all ranges and needs for power saws. The company has all the necessary equipment for directional felling of small, medium, and large trees, including felling wedges, felling Axes, small, medium, and long chainsaw bars, etc. We also have a full range of hand tools including but not limited to Pulaskis, McLeods, "Rogue" hoes, "Chingaderas", and fire shovels which allow us to construct fire line in all types of forest and rangeland soils.

We stay up on the newest hand tools the trail building and wildland fire market has to offer. The company also has two 12-inch brush chippers that are often utilized in rugged terrain to disperse slash. The current crew has vast experience working in both a wild land and urban setting on a weekly basis, since we come from both arboricultural and Wildland Fire backgrounds.

4.1.1.4 Erosion control.

Sierra Peaks Enterprises, LLC does not submit a response for this sub-scope.

- 4.1.2 Crews will be provided with written prescriptions that contain specifications and other pertinent information for each project;
- 4.1.3 Travel to worksite may require driving on narrow, winding, native surface roads for long distances. During the summer months, frequent encounters with hikers, mountain bikers, and horseback riders should be expected;

Taking into consideration the environmental impact the fuel reduction process has on the forest we are sympathetic to local residents' concerns and will take the time to explain the benefits of the process. By enlightening area residents we hope to alleviate any misconception they may have and gain their acceptance.

Further, since Sierra Peaks is based in a rural area surrounded by thousands of acres of federally-maintained forests, we understand that outsiders are well-recognized and do our best to maintain a low profile when interacting with locals.

- 4.1.4 Crews must be able to work in difficult terrain that may include steep, rocky slopes, and areas of dense trees with large, unstable snags, poor footing and exposure to adverse weather. In addition, some work may be required in urban environments and may contain such hazards as structures, trees, power lines, and vehicles; and

These are typical conditions for our crew who work in the Eastern Sierra, foothills and valleys, in both dense forest and dense urban locations.

- 4.1.5 Work includes lifting rounds of wood and segments of logs, limb wood, and brush.
- 4.1.6 Tree felling services will include the operation of chainsaws to complete felling, liming, lopping, bucking and brushing activities according to written prescriptions. Specifications identified below may be modified based on a specific prescription or scope of work.
 - 4.1.6.1 Tree fellers must be able to directionally fell trees away from residual trees or objects to be protected;
 - 4.1.6.2 Tree to be cut larger than six (6) inches in diameter may be marked with paint (color to be determined between awarded vendor and State's designee). Trees that are less

than six (6) inches in diameter may be designated by description;

Sierra Peaks Enterprises, LLC acknowledges and understands these sections.

- 4.1.6.3 Trees range in size from one (1) inch to twenty-four (24) inches DBH;
- 4.1.6.4 Cut trees in area not designated for firewood sales must be limbed on all sides, bucked into four (4) foot lengths and stacked for burning, depending on the prescription unless specified differently in a scope of work;
- 4.1.6.5 In areas designated for firewood sales, cut trees larger than eight (8) inches in diameter must be limbed on all sides, bucked into four (4) foot lengths, and stacked for removal by individuals purchasing firewood permits unless specified differently in a scope of work;
- 4.1.6.6 Borax will be applied to all freshly cut green evergreen tree stumps larger than ten (10) inches in diameter to prevent the spread of root disease;
- 4.1.6.7 Maximum stump height is six (6) inches above high ground level;
- 4.1.6.8 Trees that are less than six (6) inches must be cut flush with the ground; and
- 4.1.6.9 Typical brush species are primarily ceanothus, manzanita, oak, and chinkapin, and are mostly three (3) to six (6) feet high. Designation for brush removal is generally by description (e.g. remove fifty (50) percent of the brush) to reduce fuel continuity.

Vendor acknowledges and understands these requirements.

- 4.1.7 Disposal of cut material will be accomplished by hand piling for burning, chipping, scattering, and/or removal from site, as designated by the project manager or through a scope of work. All piles must be located so that live trees are not scorched during the burning process. Pile locations will be decided by awarded vendor and the State's designee. Accurate recordation for hours of use and biomass produced is required.
- 4.1.8 Erosion control services that may be requested include routine light maintenance on roads and trails that can be done by hand, such as digging, trenching and/or removing sedimentation from drainage structures installed along park roads and trails. Other erosion control may include tilling, application of fertilizer, seeding, mulching, irrigation, and the application and establishment of erosion control materials (i.e., geotextile fabric).

- 4.1.9 Cost items shall be provided by the vendor to accomplish specific forestry-related tasks using the units below *during the bidding process*.

Vendor acknowledges and understands these requirements

4.1.9.1 Service Associated with Scope

Service Associated With Scope	Cost Unit
A. Tree cutting (felling, liming, bucking)	Acre
B. Burn pile stacking	Acre
C. Pile burning	Acre
D. Brushing	Acre
E. Chipping	Hourly
F. Fire line construction	LF
G. Mobilization	Mile

All other work and materials necessary to complete work (e.g. generator fuel) will be considered incidental and included in the payment of cost items.

Vendor acknowledges and understands these requirements

4.2 Large Tree Removal Services Specification

- 4.2.1 Awarded vendor will provide large tree removal on an as needed basis.

The company has all the necessary equipment for directional felling of small, medium, and large trees, including felling wedges, felling Axes, small, medium, and long chainsaw bars, etc. Sierra Peaks Enterprises has all the necessary knowledge to perform all large tree removals. Our tree climbers have many years of vast climbing experience. We utilize Single Rope Techniques, Double Rope Techniques, and the use of climbing spurs for removals. The company has the know-how to use both aerial lift trucks and Rope climbing techniques to remove any tree. We have all the rigging necessary to lower large wood to the ground. If the job arises we have many years subcontracting with local crane companies to perform large

tree removals. We have the necessary equipment to move and transport large wood away from the job site. We also have the equipment to stump grind the largest stumps.

4.2.2 Equipment used must be able to operate on uneven, rocky ground;

Vendor acknowledges and understands this requirement; we have operated in this environment routinely.

4.2.3 Equipment used must be able to selectively remove individual trees;

4.2.4 Equipment used must be able to operate in close proximity to homes and other structures;

Vendor acknowledges and understands this requirement; we have operated in this environment routinely

4.2.5 Tree stumps shall be cut to a height of six (6) inches or what is deemed to be appropriate based on site limitations (to be determined by State's designee and awarded vendor), and then treated with a borax solution. If the entire tree is not specified for removal, then logs remaining on the lot must be bucked as necessary to insure that each log or log segment is completely on the ground;

4.2.6 All felled trees must be limbed, and the slash must be removed from the property, or chipped, blown and scattered on the property as directed by the State's designee. Wood chips left on the parcel must not exceed two (2) inches in depth;

Vendor acknowledges and understands these requirements.

4.2.7 If project specifications include that the awarded vendor remove materials for commercial purposes, then the awarded vendor may be expected to reduce or negotiate their fees. Vendors must indicate in their response whether or not they will remove materials for commercial purposes, and if so, define their process and fee schedule, along with their willingness to negotiate when appropriate;

We do not remove materials for commercial purposes.

4.2.8 Upon receipt of a work order, the awarded vendor shall have all work completed within thirty (30) days;

4.2.9 The awarded vendor's activities upon any Government, State, or private property shall be confined to spaces, areas, roads and locations as directed by the State's designee; and

4.2.10 The awarded vendor will work only on normal workdays, Monday through Friday, and between the hours of 8:00 a.m. and 5:00 p.m.

After hours work and work on Saturdays, Sundays, and State holidays will not be permitted unless the awarded vendor obtains written approval from the State's designee.

Vendor acknowledges and understands these requirements.

4.2.11 Services will be provided by the vendor to accomplish large tree removal using the units below:

4.2.11.1 Class A: Any tree that can be laid down with a clear path on said property. (e.g., A 200' tree or a 30' tree regardless of the height and diameter, if the tree has a clear path to fall and can be easily topped and limbed. This job would require one (1) or more people);

4.2.11.2 Class B: Any tree needing to be climbed, trimmed, topped and pieced out. (This job requires one (1) climber/faller and one (1) or more ground person); and

These scopes are routinely performed by Sierra Peaks Enterprises, LLC with its own staff and equipment, and have been performed for more than 7 years as a company. Our machinery and equipment is highlighted at page 8. We have decades of experience with this scope, counting the combined experience of our managing member Kurt Dreyer and our Key Personnel, such as Chet Fairbank and Jared Whitaker.

4.2.11.3 Class C: Mechanical involvement required. (e.g., Crane job – 100' crane. This job would require two (2) or more people).

For certain jobs like the Class C trees, we will utilize in the northwestern counties, our usual subcontractor Connolly Crane, if approved by the State. In other areas, we will investigate and seek to utilize local equipment and its' operators, and will seek approval from the State agency for such subcontractor.

In terms of crane equipment, Connolly Crane, for example, owns and utilizes MANITEX M2892S 28 ton, National 18127 40 ton, National NBT55 55 ton, Linkbelt 8675 75 ton, and Linkbelt HTT 86100. (See, <http://connollycraneservice.com/equipment/>).

Appropriate signage meeting State Highway and local county jurisdiction's requirements must be provided by awarded vendor.

Sierra Peaks Enterprises routinely uses federally approved (MUTCD) traffic control devices while working adjacent to active roadways. If needed, appropriate signs will be placed in designated areas to ensure the safety of motorists and pedestrian traffic.

4.3 Forestry Equipment Specification

- 4.3.1 Vendors must indicate in their response the manufacturer and model of available equipment, the capabilities of the equipment, and the operator/crews available to man the equipment.

Vendor's Equipment Schedule

Manufacturer & Model	Equipment Capabilities	Operator/Crews to Man Equip.
1. Bobcat T-300, 2008 - skid steer	<ul style="list-style-type: none"> ✓ 2008 Bobcat T-300, Rubber-tracked which creates less soil compaction than a wheeled vehicle ✓ Soil compaction of 6 pounds psi (per square inch) which is considered beneficial in avoiding damage to tree roots while traveling around the tree ✓ Maximum safe working slope of 30% hillside angle determined by the manufacturer ✓ Fecon mastication head BH74SS ✓ Head height exceeds requisite minimum head height of 12.5 feet ✓ Purchased in 2009 ✓ Equipped with a Roll-Over Protection System and a Falling Object Protection ✓ System Loader capabilities ✓ Log grapple attachments ✓ Brush rake attachment ✓ Stump grinder attachment ✓ 12" Tree shears attachment 	Kurt Dreyer Chet Fairbank
2. JCB 214 Sitemaster Backhoe, 4WD	<ul style="list-style-type: none"> ✓ Outfitted with Log forks to lift logs ✓ Capability of skidding logs 	Kurt Dreyer Chet Fairbank

Manufacturer & Model	Equipment Capabilities	Operator/Crews to Man Equip.
3. International 4700 Dump Truck		Kurt Dreyer Chet Fairbank
4. 24' Equipment Trailer	<ul style="list-style-type: none"> ✓ Gooseneck with log bolsters ✓ 20,000 pound GVWR (gross vehicle weight rating) 	Kurt Dreyer Chet Fairbank
5. 14' Load Trail Dump Trailer	<ul style="list-style-type: none"> ✓ 14,000 pounds load 	Kurt Dreyer Chet Fairbank
6. Vermeer 12" Brush Chipper		Kurt Dreyer Chet Fairbank
7. 2008 Altec 12" Brush Chipper		Kurt Dreyer Chet Fairbank
8. International 4700 Forestry Aerial Platform (Bucket) Truck	<ul style="list-style-type: none"> ✓ debris storage box 	Kurt Dreyer Chet Fairbank
9. Mobile Fire suppression unit	<ul style="list-style-type: none"> ✓ 300-gallon capacity ✓ Equipped with high volume output ✓ Gas fired fire pump ✓ 200 feet of 1.5 inch fire hose with adjustable nozzle tip. ✓ Equipped with various hand and power tools. 	Kurt Dreyer Chet Fairbank
10. Two (2) Crew transport trucks	<ul style="list-style-type: none"> ✓ 4x4 for inclement weather and difficult terrain 	Kurt Dreyer Chet Fairbank
11. Two (2) Fueling trucks	<ul style="list-style-type: none"> ✓ 4x4 for inclement weather and difficult terrain 	Kurt Dreyer Chet Fairbank
12. Service truck	<ul style="list-style-type: none"> ✓ 4x4 for inclement weather and difficult terrain ✓ Has tools, supplies, and fuel 	Kurt Dreyer Chet Fairbank

Manufacturer & Model	Equipment Capabilities	Operator/Crews to Man Equip.
13. Communications equipment	<ul style="list-style-type: none"> ✓ Everyone is equipped with cell phone, and a walkie talkie system ✓ In case of fire, communications will be established with ECC. ✓ If needed for particular projects, Vendor will obtain radios to utilize forest net. 	Kurt Dreyer Chet Fairbank
14. Accessories	<ul style="list-style-type: none"> ✓ Chain saws ✓ "Pulaski" tool ¹ ✓ "McLeod" tool ² ✓ climbing and rigging gear (ropes, pulleys, ascenders, safety equipment, etc. provided by various manufacturers) ✓ lowering devices ✓ Safety signage and more. 	Kurt Dreyer Chet Fairbank

4.3.2 Equipment to be utilized on fuels management and/or forest health and/or habitat enhancement projects that may include, but is not necessarily limited to:

4.3.2.1 Tree shears

Sierra Peaks Enterprises, LLC does not submit a response for this sub-scope.

4.3.2.2 Brush masticators and mowers – light, medium, and heavy duty

Sierra Peaks utilizes its Bobcat T-300, 2008 - skid steer with a Fecon forestry mastication head (a bullhog), the features of which are set forth on page 8 of this tab. The manufacturer of the Bobcat specifies that the maximum percentage of slope on which the Bobcat should be used is 30%.

¹ "The [Pulaski] tool combines an axe and an adze in one head, similar to that of the cutter mattock, with a rigid handle of wood, plastic, or fiberglass. The pulaski is a versatile tool for constructing firebreaks, as it can be used to both dig soil and chop wood. It is also well adapted for trail construction, gardening, and other outdoor work. As a gardening or excavation tool, it is effective for digging holes in root-bound or hard soil." See, [http://en.wikipedia.org/wiki/Pulaski_\(tool\)](http://en.wikipedia.org/wiki/Pulaski_(tool))

² "The **McLeod** is a wildland firefighting tool with a large hoe-like blade on one side and tined blade on the other. It is commonly used in the mountains of the American west. This tool is called a "Rake Hoe" in Australia and a "Streif" in the American southwest." See, [http://en.wikipedia.org/wiki/McLeod_\(tool\)](http://en.wikipedia.org/wiki/McLeod_(tool))

While Sierra Peaks Enterprises has been in business, seven (7) years, we have performed defensible space clearing and mastication work on hundreds of acres. Working with project managers from the Nevada Fire Safe Council, Smith Valley Conservation District and various property owners we have reduced hazardous fuels from residential and commercial properties using our Bobcat T300 and our hand crews.

During our daily pre-work meeting the agency representative would instruct our staff on the type and amount of hazardous fuels to be removed. The total amount would vary depending on topography and the needs of the agency concerned but the average would be in the 60 to 70% removal range of small trees and brush.

The equipment operator would remove the required amount of vegetation. Production rates vary depending on topography and the amount of hazardous fuels to be removed. Our Bobcat T300 fitted with a Fecon forestry mastication head can treat 3 to 9 acres per day taking into account the percentage of hazardous fuels to be removed and the terrain that will be treated. Our International Tractor, JX1100U, outfitted with a flail mower can treat 10 to 20 acres per day depending on topography. These estimates are based on working from first to last light.

After reviewing a work order and communicating with the contracting officer, the project manager will walk the area to be treated and will inform equipment operator on work order specifications. In the past Sierra Peaks has found it very useful to have the equipment operator accompany the project manager on a walk thru to reduce the possibility of a miscommunication. We have found this pre-work meeting to be very effective and increase productivity.

Our equipment operators will survey the work area conditions and debris to be treated. We will commence on the leeward side in the morning when winds are calm and working through the day through windward side. Initially, both the Bobcat and the Tractor will work in the same area so they can assist each other. Both operators will have a fire extinguisher in the cab, as well as tools needed to put out fires, such as the Pulaski tool and a shovel.

The equipment operator would remove the required amount of vegetation using either a mosaic pattern or operating the machine in a straight line thereby creating a fire line break.

The most common method we have used in the past is a mosaic pattern. The equipment operator will select vegetation that will remain and work the machine around these areas taking care not to damage the remaining vegetation. The mosaic pattern allows the operator to remove a large percentage of hazardous fuels but will leave the area with an appealing look. This method has also improved wildlife observation for our clients.

Sierra Peaks Enterprises, LLC can and will use any of the equipment specified in our Equipment Schedule at p. 8, above.

Sierra Peaks will walk the site looking for watershed patterns, and sensitive areas that may impact animal habitat. For instance, Sierra Peaks will meet with the agency's representative to determine the agency's goal pertaining to how much brush to remove and what types of brush to remove. Vibrant bitter brush should be left behind to support animal habitat.

Furthermore, Sierra Peaks searches for water features, such as creeks and wetlands. Sierra Peaks understands it can only work up to a certain distance from a creek and understands the restrictions upon working in wetlands.

4.3.2.3 Feller bunchers

Sierra Peaks Enterprises, LLC does not submit a response for this sub-scope.

4.3.2.4 Forwarders

4.3.2.5 Cut to length operators

Sierra Peaks Enterprises, LLC does not submit a response for these sub-scopes.

4.3.2.6 Heavy cranes

For Class C trees, we will subcontract with the crane owner and operator(s). List of cranes available, for example, from one of our crane subcontract services is found at p. 70 above.

In the Northwestern counties of Nevada (Lyon, Washoe, Douglas, Humboldt, Pershing, Churchill, Storey, Carson City and Mineral), where possible, we will use our usual subcontractor, Connolly Cranes. In other areas of North and Rural Nevada, we will first attempt to hire reliable, economically competitive cranes and crane operators in the local area, and seek approval from the state agency on a project by project basis to add such operators as Subcontractor(s)

- 4.3.2.7 Wheeled skidders
- 4.3.2.8 Tracked skidders
- 4.3.2.9 Tub grinders

Sierra Peaks Enterprises, LLC does not submit a response for these sub-scopes.

- 4.3.2.10 Chippers

We will use our chippers listed in the equipment schedule above at p. 8 to minimize the size of waste, as requested on each project.

- 4.3.2.11 Bulldozers
- 4.3.2.12 Lawson Aerator

Sierra Peaks Enterprises, LLC does not submit a response for these sub-scopes.

- 4.3.3 Awarded vendor will be required to supply operator(s), equipment transport, and if applicable, water for fire suppression/dust abatement.
- 4.3.4 General project specifications (project specific specifications will be described in a scope of work prior to commencement of each project and may deviate from the specifications listed below):
 - 4.3.4.1 All vegetation and slash identified for treatment shall be cut at a maximum of six (6) inches above the normal plane of ground (measured at stump height on uphill side);
 - 4.3.4.2 No slash and other vegetative debris shall be more than twelve (12) inches deep as measured from the ground level;
 - 4.3.4.3 No damage to crop trees as a result of contract operations is permitted;

Sierra Peaks Enterprises is a locally owned and operated full tree service company located in Northern Nevada. General manager Chet Fairbank, who is an ISA, certified Arborist, routinely trains company personnel on the effects that equipment and individuals have on the forest. He has instructed them on the impact equipment has on the root system of trees and advises them on a safe working distance that will not damage the root system. In the past Sierra Peaks has used flagging or other means to promote a safe working environment and protect the forest from unnecessary damage.

- 4.3.4.4 All cut vegetation shall be kept within unit boundaries;
- 4.3.4.5 Any cut vegetation falling into ditches, roads, road banks, trails or adjacent units shall be removed by the end of the work day;
- 4.3.4.6 No masticated or cut material shall lean against or be suspended by leave trees;
- 4.3.4.7 Vegetation that is within two (2) feet vertical or horizontal of any obstacle such as large rocks or fences will not require treatment; and
- 4.3.4.8 All boles or pieces up to ten (10) inches in diameter shall be masticated.

Vendor acknowledges and understands these requirements

- 4.3.5 Specifications for cut material (slash):
 - 4.3.5.1 Fifty (50) percent shall be less than or equal to six (6) inches in length;
 - 4.3.5.2 Forty (40) percent shall be less than or equal to two (2) feet in length; and
 - 4.3.5.3 No more than ten (10) percent shall be equal to two (2) to four (4) feet in length. No slash shall exceed four (4) feet.

Vendor acknowledges and understands these requirements

- 4.3.6 Chaining

Sierra Peaks Enterprises, LLC does not submit a response for this sub-scope.

4.4 Pesticide Application Specification

Sierra Peaks Enterprises, LLC does not submit a response for this scope.

4.5 Seed Drills/Application Specification

Sierra Peaks Enterprises, LLC does not submit a response for this scope.

4.6 Hauling Services Specification

Sierra Peaks Enterprises, LLC does not submit a response for this scope.

4.7 Ground Seeders/Spreaders Specification

Sierra Peaks Enterprises, LLC does not submit a response for this scope.

4.8 Shrub and Tree Planting Specification

Sierra Peaks Enterprises, LLC does not submit a response for this scope.

4.9 Controlled Fire Specification

Sierra Peaks Enterprises, LLC does not submit a response for this scope.

4.10 Road Construction/Maintenance/Rehabilitation Specification

- 4.10.1 Vendors must indicate in their response the manufacturer and model of available equipment necessary to complete this work, the capabilities of the equipment, and the operator/crews available to man the equipment as they pertain to the specifications of this scope of work.

Please see our equipment list at page 8, above, and description of tree removal, including mastication of scrub species and small trees, use of hand crews, and removal of large trees, above.

- 4.10.2 Road construction activities may include, but are not necessarily limited to:
- 4.10.2.1 Road blazing;
Grading;
Backhoe/Track Hoe work;
Rock removal;

Sierra Peaks Enterprises, LLC does not submit a response for these scopes.

- 4.10.2.2 Tree removal;

Please see our equipment list at page 8, above, and description of tree removal, including mastication of scrub species and small trees, use of hand crews, and removal of large trees, above. We can also push small trees and scrub off the road with our Bobcat.

- 4.10.2.3 Cut and fill work;
- 4.10.2.4 Skid trail construction;
- 4.10.2.5 Installation of drainage structures such as, but not limited to:
 - A. Culverts, bar ditches
 - B. Rolling dips
 - C. Trench drains
 - D. Tile drains
 - E. Erosion control barriers and structures
 - F. Temporary drainage crossings
- 4.10.2.6 Existing road and skid trail maintenance; and
- 4.10.2.7 Skid road rehabilitation following project conclusion.

Sierra Peaks Enterprises, LLC does not submit a response for these sub-scopes.

- 4.10.3 Vendors must have a familiarity with drainage fabrics and geotextiles. Vendors must include in their response, detailed experience in comparable projects.

4.11 Additional Requirements

Vendors need to be aware that due to wildlife and special resource concerns, or special events, a temporary delay in authorization to proceed may result.

Sierra Peaks Enterprises, LLC acknowledges this.

- 4.11.1 At awarded vendor's expense, all vehicles entering any critical habitats must be extensively cleaned (primarily the undercarriage) prior to entry to prevent the spread of invasive species.

We are also concerned about not bringing in undesired species. All equipment is thoroughly cleaned before moving to new locations.

- 4.11.2 The awarded vendor must agree to avoid impacts to historic and prehistoric sites as defined under NRS 381.195. Avoidance means that no ground disturbing activities associated with the project will affect historic and prehistoric sites during construction. The State's designee will flag the boundaries of historic and prehistoric sites to be avoided within the project area and present this information to the vendor in the field. The awarded vendor will be responsible for communicating avoidance requirements to heavy equipment operators, subcontractors and any of its personnel working in the vicinity. Any impacts to cultural resources within the flagged boundaries associated with the

project, whether purposeful or inadvertent, are not acceptable and the State may require the awarded contractor to pay for the recordation, stabilization or data recovery at the site. The State may consider a contractor's affects to historic and prehistoric sites as disqualifying factors in future RFQs. In the event that historic or prehistoric resources are discovered, contractor will cease work immediately and contact the State's designee.

Most contracting agencies will have already performed a study regarding historic or pre-historic materials at the point when we start. But, if such has not been done, Sierra Peaks will exercise due diligence and look for historic or pre-historic materials at this site inspection.

- 4.11.3 The awarded vendor(s) shall ensure that all its personnel and the personnel of any of its subcontractors are directed not to engage in the illegal collection of historic and prehistoric materials.
- 4.11.4 The awarded vendor shall call law enforcement if any suspected human remains are encountered in the project area.

All of our personnel have been trained on this and will notify the agency's point person if such is discovered.

3.4 PROJECT MEETINGS FOR FIRE FUEL REDUCTION AND VEGETATION MANAGEMENT SERVICES;

3.4.1 Pre Work Conference:

- 3.4.1.1 A Pre-Work Conference will be held prior to the start of each project. The vendor will be notified in advance of meeting time, date and place. The purpose will be to review required work, project drawings and specifications, construction schedules, payments, and administrative provisions of the contract;
- 3.4.1.2 The vendor, subcontractors and the persons responsible for coordination of the work shall be present at the meeting; and
- 3.4.1.3 The vendor shall be prepared to summarize and explain procedures planned for the project.

Working with project managers from the Nevada Fire Safe Council, Smith Valley Conservation District and various property owners we have reduced hazardous fuels from residential and commercial properties using our Bobcat T300 and our hand crews. During our daily pre-work meeting the agency representative would instruct our staff on the type and amount of hazardous fuels to be removed. The total amount would vary depending on

topography and the needs of the agency concerned but the average would be in the 50 to 60% removal range.

After receiving a task order the managerial staff will review the document and communicate any questions we may have with the agency concerned. The project coordinator will set up an appointment to speak directly with the individual responsible for overseeing the mastication project and discusses the task order parameters.

While inspecting the area to be treated the project manager will inform the agency representative of the amount of time required to complete the task order. The project manager and the agency representative will work out a communication schedule. Sierra Peaks' project manager will keep the agency representative informed of project progress as often as the representative would like and at intervals in the day, when not operating machinery, will be available to handle any administrative concerns.

For short timeframe communications, we have programmable handheld radios that can be programmed to local frequencies. We have mobile phones, and, if necessary, will obtain a satellite phone for the duration of project.

- 12.1.6 RFQ responses must include any and all proposed terms and conditions, including, without limitation, written warranties, maintenance/service agreements, license agreements and lease purchase agreements. The omission of these documents renders an RFQ response non-responsive.

Our proposals on each project are binding for a period of 90 days after the proposal is made. All work is guaranteed to be performed within the terms of the contract. We are not responsible for damage done to underground utility lines we are not made aware of prior to the commencement of work.

5.1 VENDOR INFORMATION

5.1.1 Vendors must provide a company profile in the table format below.

Question	Response
Company name:	<i>Sierra Peaks Enterprises, LLC</i>
Ownership (sole proprietor, partnership, etc.):	<i>Nevada Limited liability company</i>
State of incorporation:	<i>Nevada</i>
Date of incorporation:	<i>6/18/2009 date of formation</i>
# of years in business:	<i>7+</i>
List of top officers:	<i>Kurt Dreyer, Managing Member Erica Dreyer, Managing Member</i>
Location of company headquarters:	<i>1075 Foothill Rd. Gardnerville, NV 89460</i>
Location(s) of the company offices:	<i>Same</i>
Location(s) of the office that will provide the services described in this RFQ:	<i>Same</i>
Number of employees locally with the expertise to support the requirements identified in this RFQ:	<i>5, in addition to managing member Kurt Dreyer, and up to 35 for hand crew jobs</i>
Number of employees nationally with the expertise to support the requirements in this RFQ:	<i>Same</i>
Location(s) from which employees will be assigned for this project:	<i>Gardnerville, NV</i>

5.1.2 **Please be advised**, pursuant to NRS 80.010, a corporation organized pursuant to the laws of another state must register with the State of Nevada, Secretary of State's Office as a foreign corporation before a contract can be executed between the State of Nevada and the awarded vendor, unless specifically exempted by NRS 80.015.

Sierra Peaks Enterprises, LLC is a domestic limited liability company.

5.1.3 The selected vendor, prior to doing business in the State of Nevada, must be appropriately licensed by the State of Nevada, Secretary of State's Office pursuant to NRS76. Information regarding the Nevada Business License can be located at <http://sos.state.nv.us>.

Question	Response
Nevada Business License Number:	<i>NV20091194343</i>

Question	Response
Legal Entity Name:	<i>Sierra Peaks Enterprises, LLC</i>

Is "Legal Entity Name" the same name as vendor is doing business as?

Yes	XX	No	
-----	-----------	----	--

If "No", provide explanation.

- 5.1.4 Vendors are cautioned that some services may contain licensing requirement(s). Vendors shall be proactive in verification of these requirements prior to proposal submittal. Proposals that do not contain the requisite licensure may be deemed non-responsive.

Sierra Peaks Enterprises, LLC possesses the licenses that it is required to have.

- 5.1.5 Has the vendor ever been engaged under contract by any State of Nevada agency?

Yes	XX	No	
-----	-----------	----	--

If "Yes", complete the following table for each State agency for whom the work was performed. Table can be duplicated for each contract being identified.

Question	Response
Name of State agency:	<i>Smith Valley Conservation District</i>
State agency contact name:	<i>C/O Ron Melen -Project Manager 215 W. Bridge St. Ste.#11A Yerington, NV 89447 (775) 463-3780</i>
Dates when services were performed:	<i>Numerous Contracts: 02/10 - 02/21/14 12/16/13 - 1/29/14 4/22-23/13 11/26 - 12/19/12 11/15 thru 12/15/11 4/2/thru 5/1/11 3/9/11-3/20/11</i>
Type of duties performed:	<i>Hazardous Fuels Reduction; Mastication</i>
Total dollar value of the contract:	<i>\$33,403.</i>

Question	Response
Name of State agency:	<i>Carson Valley Conservation District</i>

Question	Response
	<i>Vendor Sierra Peaks performed these as a subcontractor to Contractor Crockett Enterprises c/o Brian Crockett-Owner 1101 Sawmill Rd. Gardnerville, NV 89460 (775) 782-7640</i>
State agency contact name:	<i>Mike Hayes 1702 County Road Suite 1A Minden, Nevada 89423-4460 Phone: (775) 782-3661 x102</i>
Dates when services were performed:	<i>02/2016</i>
Type of duties performed:	<i>Mastication of willows and shrubs</i>
Total dollar value of the contract:	<i>\$1,792.</i>

Question	Response
Name of State agency:	<i>Division of Tourism and Cultural Affairs: Nevada State Museum, Carson City</i>
State agency contact name:	<i>Richard Parker 600 N. Carson Street Carson City, NV 89701 775-681-4810 ext. 254</i>
Dates when services were performed:	<i>09/2013 thru 12/2013</i>
Type of duties performed:	<i>Hazardous Fuels Reduction and Mastication on museum-owned vacant acreage</i>
Total dollar value of the contract:	<i>\$1,550.</i>

5.1.6 Are you now or have you been within the last two (2) years an employee of the State of Nevada, or any of its agencies, departments, or divisions?

Yes		No	X
-----	--	----	----------

If “Yes”, please explain when the employee is planning to render services, while on annual leave, compensatory time, or on their own time?

If you employ (a) any person who is a current employee of an agency of the State of Nevada, or (b) any person who has been an employee of an agency of the State of Nevada within the past two (2) years, and if such person will be performing or producing the services which you will be contracted to provide under this contract, you must disclose the identity of each such person in your response to this RFQ, and specify the services that each person will be expected to perform.

- 5.1.7 Disclosure of any significant prior or ongoing contract failures, contract breaches, civil or criminal litigation in which the vendor has been alleged to be liable or held liable in a matter involving a contract with the State of Nevada or any other governmental entity. Any pending claim or litigation occurring within the past six (6) years which may adversely affect the vendor's ability to perform or fulfill its obligations if a contract is awarded as a result of this RFQ must also be disclosed. Does any of the above apply to your company?

Yes		No	X
-----	--	----	----------

If "Yes", please provide the following information. Table can be duplicated for each issue being identified.

Question	Response	
Date of alleged contract failure or breach:	N/A	
Parties involved:		
Description of the contract failure, contract breach, or litigation, including the products or services involved:		
Amount in controversy:		
Resolution or current status of the dispute:		
If the matter has resulted in a court case:	Court	Case Number
Status of the litigation:		

- 5.1.8 Vendors must review the insurance requirements specified in ***Attachment E, Insurance Schedule for RFQ 3282***. Does your organization currently have or will your organization be able to provide the insurance requirements as specified in ***Attachment E***.

Yes	XX	No	
-----	-----------	----	--

Any exceptions and/or assumptions to the insurance requirements *must* be identified on *Attachment B, Technical Certification of Compliance with Terms and Conditions of RFQ*. Exceptions and/or assumptions will be taken into consideration as part of the evaluation process; however, vendors must be specific. If vendors do not specify any exceptions and/or assumptions at time of their RFQ response submission, the State will not consider any additional exceptions and/or assumptions during negotiations.

Upon contract award, the successful vendor *must* provide the Certificate of Insurance identifying the coverages as specified in *Attachment E, Insurance Schedule for RFQ 3282*.

- 5.1.9 Company background/history and why vendor is qualified to provide the services described in this RFQ. Limit response to no more than five (5) pages.

Sierra Peaks Enterprises, LLC specializes in all sizes of tree removal and fire fuel reduction through hand crew and brush mastication of fire fuels and animal habitats. Managing and equal members Kurt Dreyer and Erica Dreyer, who are husband and wife, operate Sierra Peaks Enterprises, a Nevada limited liability company. In Kurt Dreyer the State of Nevada and its agencies will find expertise in fire fuels reduction, brush mastication, operational know-how, safety-mindedness, wildland stewardship and firefighting. In Erica Dreyer, the State and its agencies will find a personable, action-oriented dispatcher, controller and customer service person.

The Dreyers have formed Sierra Fire Fuels, LLC, a separate business entity, to take on the mastication and mowing fire fuel reduction services that Sierra Peaks had been doing for 6 years. Kurt and Erica Dreyer are the sole owners and managing members of Sierra Fire Fuels, LLC. The companies are both generally managed by Chet Fairbank, a former fire fighter and woodsman.

Sierra Peaks regularly works in the Eastern Sierras in areas with heavier fuel loading than many parts of Nevada. While Sierra Peaks Enterprises has been in business over the last seven (7+) years, we have performed defensible space clearing and mastication work on hundreds of acres. Working with project managers from the Nevada Fire Safe Council, Smith Valley Conservation District and Carson Valley Conservation District we have reduced hazardous fuels from residential and commercial properties.

Sierra Peaks Enterprises, LLC has qualifications and seeks to work for the State of Nevada in each of these areas:

- ✓ *Brush and small tree mastication via mechanical means (Bobcat)*
- ✓ *Brush and tree removal via hand crews*
- ✓ *Large tree removal requiring climbers and a crane*

Kurt Dreyer gained firefighting experience and knowledge of what triggers and fuels wildland fire and structure fires as a long-time volunteer firefighter for the East Fork Fire District in beautiful

Carson Valley of Douglas County, Nevada. Douglas County is situated on the California-Nevada border and encompasses a portion of Lake Tahoe.

Prior to forming Sierra Peaks Enterprises, Dreyer felled numerous trees, for his own family, and for compensation for many years. Dreyer, since his teenage years, has played an integral role in his family's ranching, farming and dairy operation established in Minden by his grandfather Henry Dreyer in the 1920's. As an avid lifetime outdoorsman, Kurt Dreyer learned the composition, steward responsibilities and nuances of Nevada and Eastern California public lands as only a local can. Dreyer has lived and been an active part of the community his whole life.

Dreyer rose to the level of Assistant Chief within the Sheridan Volunteer Fire Department in Douglas County. He has years of experience with the machinery used in brush mastication and tree removal. Dreyer, a ranch kid, began using trucks and heavy farm equipment as an adolescent. He is adept with use of the Bobcat used in mastication, the aerial platform truck, saws and trimming tools, as well as with firefighting equipment.

He has used the equipment listed in Tab VII for the last 7+ years as an owner and operator of Sierra Peaks Enterprises, LLC, and in many cases, such as with the Bobcat, well over 30 years. With other employees, Dreyer has performed numerous public and private jobs. Our references will confirm that Sierra Peaks and Sierra Fire Fuels completed these jobs in the defined time parameters and within the budget provided by the customer.

In terms of Sierra Peaks' safety record, Dreyer and general manager Fairbanks are sticklers. Dreyer piloted single-engine, fixed-wing aircraft for over a decade which honed his equipment safety skills even more than they were before founding Sierra Peaks. As a firefighter with East Fork Fire Department of Douglas County received training in and practiced multiple safety procedures to ensure his own safety and the safety of those persons and property in his vicinity.

As a generational native of Northern Nevada, Dreyer knows the terrain, the regions, the culture and the biology of Northern Nevada and California and southern Idaho. He is an outdoor sportsman who has traveled and utilized public lands all over Northern Nevada, California and Idaho his whole life. His background in agriculture, ranching and animal husbandry gives him insight on weather conditions, non-domesticated animals and the history of this area. He brings all of that wisdom to each job project.

As the business grew, Mr. Dreyer hired Chet Fairbank, a person who already had developed years of experience on and managing wildland fire suppression crews. In that role, Mr. Fairbank provided leadership to positively motivate crews in performance of wildland fire suppression activities, as well as other work conducted while not actively engaged in firefighting activities. As General Manager, Fairbank has brought that same leadership and expertise to Sierra Peaks and Sierra Fire Fuels.

5.1.10 Length of time vendor has been providing services described in this RFQ to the public and/or private sector. Please provide a brief description.

- ✓ **Brush and small tree mastication via mechanical means (Bobcat)**

7+ years

- ✓ **Brush and tree removal via hand crews**

7+ years

- ✓ **Large tree removal requiring climbers and a crane**

8 years

5.1.11 Financial information and documentation to be included in Part III, Confidential Financial Information of vendor's response in accordance with Section 10.5, Part III – Confidential Financial Information.

Sierra Peaks Enterprises, LLC has supplied its confidential financial information within this RFQ as directed.

5.2 SUBCONTRACTOR INFORMATION

5.2.1 Does this RFQ response include the use of subcontractors?

Yes	XX	No	
-----	-----------	----	--

If "Yes", vendor must:

5.2.1.1 Identify specific subcontractors and the specific requirements of this RFQ for which each proposed subcontractor will perform services.

Sierra Fire Fuels, LLC will perform mechanical mastication and mowing work

Conley Crane Service, Inc. will provide crane support for large tree removal in northwestern Nevada counties.

5.2.1.2 If any tasks are to be completed by subcontractor(s), vendors must:

- A. Describe the relevant contractual arrangements;
- B. Describe how the work of any subcontractor(s) will be supervised, channels of communication will be maintained and compliance with contract terms assured; and
- C. Describe your previous experience with subcontractor(s).

Sierra Fire Fuels LLC is the sister company to Sierra Peaks Enterprises LLC. The two companies work together on a regular basis to complete contracts that require the resources of both entities. Sierra Fire Fuels is primarily responsible for the fuel reduction scope of work. Utilizing both mechanical mastication / mulching and hand crews. Sierra Fire Fuels will always be supervised by either the owner / operator or the General Manager of Sierra Peaks Enterprises LLC.

Connolly Crane (or a substitute crane service) will only be used by Sierra Peaks Enterprises when a job requires the use of a crane. Connolly Crane will only be responsible for supplying the appropriate size crane and an operator. Communication will be via phone and / or email. Sierra Peaks will pay Connolly when the job is completed to the supervisor's satisfaction. All overhead supervision will be done by either the owner / operator or General Manager of Sierra Peaks Enterprises LLC.

Sierra Peaks Enterprises LLC has utilized Connolly Crane over the past 8 years for all of our large tree removals requiring crane assistance. Over the years no issues have ever occurred.

Sierra Fire Fuels LLC began doing mechanical mastication / mulching and primarily Fire Fuel reduction the Sierra Peaks had been responsible for upon its creation on or about April 2016.

5.2.1.3 Vendors must describe the methodology, processes and tools utilized for:

- A. Selecting and qualifying appropriate subcontractors for the project/contract;
- B. Ensuring subcontractor compliance with the overall performance objectives for the project; and
- C. Ensuring that subcontractor deliverables meet the quality objectives of the project/contract; and

Sierra Peaks Enterprises LLC is the sister company to Sierra Fire Fuels LLC. All contract work and management is performed out of the same office. This allows us to oversee all aspects of the work performed by Sierra Fire Fuels LLC. Being a small company allows us to have an attention to detail that larger companies may not have because work is closely supervised by the owner / operator or the General Manager.

Connolly Crane has a small but very important job during large tree removals, safely hoisting large wood from one point to another. All supervision, climbing, clean up and removal will be performed by Sierra Peaks Enterprises LLC. Coordination of any project will be done ahead of time between Connolly and Sierra Peaks.

- D. Providing proof of payment to any subcontractor(s) used for this project/contract, if requested by the State. Proposal should include a plan by which, at the State's request, the State will be notified of such payments.

Upon satisfactory completion of any job utilizing Connolly Crane (or another crane service), Sierra Peaks Enterprises LLC will pay the crane service its fee for services. All records will be kept on these transactions to prove to the State, if required, that the Sub has been paid.

5.2.1.4 Provide the same information for any proposed subcontractors as requested in *Section 5.1, Vendor Information.*

Information concerning Connolly Crane Service, Inc. is provided on the next four pages. Information concerning Sierra Fire Fuels has been provided above, and will also follow Connolly Crane's information.

5. SUBCONTRACTOR CONLEY CRANE INFORMATION

5.1 VENDOR INFORMATION

5.1.1 Vendors must provide a company profile in the table format below.

Question	Response
Company name:	<i>Connolly Crane Service, Inc.</i>
Ownership (sole proprietor, partnership, etc.):	<i>Partnership</i>
State of incorporation:	<i>Nevada</i>
Date of incorporation:	<i>2003</i>
# of years in business:	<i>30</i>
List of top officers:	<i>Kelly Connolly Lisa Connolly</i>
Location of company headquarters:	<i>2276 Pinenut Rd. Gardnerville, Nv 89410</i>
Location(s) of the company offices:	<i>2276 Pinenut Rd. Gardnerville, Nv 89410</i>

Number of employees nationally with the expertise to support the requirements in this RFQ:	<i>4</i>
Location(s) from which employees will be assigned for this project:	<i>2276 Pinenut Rd. Gardnerville, Nv 89410</i>

5.1.2 **Please be advised**, pursuant to NRS 80.010, a corporation organized pursuant to the laws of another state must register with the State of Nevada, Secretary of State's Office as a foreign corporation before a contract can be executed between the State of Nevada and the awarded vendor, unless specifically exempted by NRS 80.015.

5.1.3 The selected vendor, prior to doing business in the State of Nevada, must be appropriately licensed by the State of Nevada, Secretary of State's Office pursuant to NRS76. Information regarding the Nevada Business License can be located at <http://sos.state.nv.us>.

Question	Response
----------	----------

Question	Response
Nevada Business License Number:	<i>NV20031387489</i>
Legal Entity Name:	<i>Connolly Crane Service, Inc.</i>

Is "Legal Entity Name" the same name as vendor is doing business as?

Yes	<input checked="" type="checkbox"/>	No	<input type="checkbox"/>
-----	-------------------------------------	----	--------------------------

If "No", provide explanation.

5.1.4 Vendors are cautioned that some services may contain licensing requirement(s). Vendors shall be proactive in verification of these requirements prior to proposal submittal. Proposals that do not contain the requisite licensure may be deemed non-responsive.

5.1.5 Has the vendor ever been engaged under contract by any State of Nevada agency?

Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>
-----	--------------------------	----	-------------------------------------

If "Yes", complete the following table for each State agency for whom the work was performed. Table can be duplicated for each contract being identified.

Question	Response
Name of State agency:	
State agency contact name:	
Dates when services were performed:	
Type of duties performed:	
Total dollar value of the contract:	

5.1.6 Are you now or have you been within the last two (2) years an employee of the State of Nevada, or any of its agencies, departments, or divisions?

Yes	<input type="checkbox"/>	No	<input checked="" type="checkbox"/>
-----	--------------------------	----	-------------------------------------

If "Yes", please explain when the employee is planning to render services, while on annual leave, compensatory time, or on their own time?

If you employ (a) any person who is a current employee of an agency of the State of Nevada, or (b) any person who has been an employee of an agency of the State of Nevada within the past two (2) years, and if such person will be performing or producing the services which you will be contracted to provide under this contract, you must disclose the identity of each such person in your response to this RFQ, and specify the services that each person will be expected to perform.

- 5.1.7 Disclosure of any significant prior or ongoing contract failures, contract breaches, civil or criminal litigation in which the vendor has been alleged to be liable or held liable in a matter involving a contract with the State of Nevada or any other governmental entity. Any pending claim or litigation occurring within the past six (6) years which may adversely affect the vendor's ability to perform or fulfill its obligations if a contract is awarded as a result of this RFQ must also be disclosed. Does any of the above apply to your company?

Yes		No	✓
-----	--	----	---

If "Yes", please provide the following information. Table can be duplicated for each issue being identified.

Question	Response	
Date of alleged contract failure or breach:		
Parties involved:		
Description of the contract failure, contract breach, or litigation, including the products or services involved:		
Amount in controversy:		
Resolution or current status of the dispute:		
If the matter has resulted in a court case:	Court	Case Number
Status of the litigation:		

- 5.1.8 Vendors must review the insurance requirements specified in ***Attachment E, Insurance Schedule for RFQ 3282***. Does your organization currently have or will your organization be able to provide the insurance requirements as specified in ***Attachment E***.

Yes	✓	No	
-----	---	----	--

Any exceptions and/or assumptions to the insurance requirements **must** be identified on **Attachment B, Technical Certification of Compliance with Terms and Conditions of RFQ**. Exceptions and/or assumptions will be taken into consideration as part of the evaluation process; however, vendors must be specific. If vendors do not specify any exceptions and/or assumptions at time of their RFQ response submission, the State will not consider any additional exceptions and/or assumptions during negotiations.

Upon contract award, the successful vendor **must** provide the Certificate of Insurance identifying the coverages as specified in **Attachment E, Insurance Schedule for RFQ 3282**.

- 5.1.9 Company background/history and why vendor is qualified to provide the services described in this RFQ. Limit response to no more than five (5) pages.

We have been doing hazardous tree removal for over 20 years. We consider it to be our specialty. We have done everything from tree work at homes to mass tree removal in Lake Arrowhead, California. We take pride in our safety, cranes, and operator capabilities.

- 5.1.10 Length of time vendor has been providing services described in this RFQ to the public and/or private sector. Please provide a brief description.

We have over 20 year experience. We do hazardous tree removal usually weekly in our region.

- 5.1.11 Financial information and documentation to be included in Part III, Confidential Financial Information of vendor's response in accordance with Section 10.5, Part III – Confidential Financial Information.

5.1.11.1 Dun and Bradstreet Number

5.1.11.2 Federal Tax Identification Number

This information will be provided within Sierra Peaks Enterprises, LLC's Response to RFQ 3282, Part III, Confidential Financial Information.

5.1 SIERRA FIRE FUELS, LLC SUBCONTRACTOR INFORMATION

5.1.2 **Please be advised**, pursuant to NRS 80.010, a corporation organized pursuant to the laws of another state must register with the State of Nevada, Secretary of State's Office as a foreign corporation before a contract can be executed between the State of Nevada and the awarded vendor, unless specifically exempted by NRS 80.015.

Sierra Fire Fuels, LLC is a domestic limited liability company.

5.1.3 The selected vendor, prior to doing business in the State of Nevada, must be appropriately licensed by the State of Nevada, Secretary of State's Office pursuant to NRS76. Information regarding the Nevada Business License can be located at <http://sos.state.nv.us>.

Question	Response
Nevada Business License Number:	<i>NV20161186328</i>
Legal Entity Name:	<i>Sierra Fire Fuels, LLC</i>

Is "Legal Entity Name" the same name as vendor is doing business as?

Yes	XX	No	
-----	-----------	----	--

If "No", provide explanation.

5.2.1.5 Business references as specified in **Section 5.3, Business References** must be provided for any proposed subcontractors.

If any response by Connolly Crane Service, Inc. is found to be not in line with the RFQ standard, please bifurcate that from Vendor's response, as Vendor has worked with other reliable, reputable crane services and can subcontract with those upon agency approval as per section 5.2.1.7.

Sierra Fire Fuels, LLC's references are provided above with Sierra Peaks' references.

- 5.2.1.6 Vendor shall not allow any subcontractor to commence work until all insurance required of the subcontractor is provided to the vendor.
- 5.2.1.7 Vendor must notify the using agency of the intended use of any subcontractors not identified within their original proposal and provide the information originally requested in the RFQ in **Section 5.2, Subcontractor Information**. The vendor must receive agency approval prior to subcontractor commencing work.

Sierra Peaks Enterprises, LLC acknowledges and understands the above two requirements.

5.3 BUSINESS REFERENCES

- 5.3.1 Vendors should provide a minimum of three (3) business references from similar projects performed for private, state and/or large local government clients within the last three (3) years.

We are providing five (5) references for Sierra Peaks Enterprises, LLC and its subcontractor Sierra Fire Fuels, LLC.

- 5.3.2 Vendors must provide the following information for every business reference provided by the vendor and/or subcontractor:

The "Company Name" must be the name of the proposing vendor or the vendor's proposed subcontractor.

Personal Statement

I have always enjoyed working outside and with my hands. I learned of arboriculture while attending classes for landscape design. It was at this time that I decided to focus on becoming an arborist. I have found the field to be greatly rewarding and enjoy the opportunities it has given me. I believe in hard, honest work and providing the best service for those that I work for. I have been an ISA Certified Arborist since 2009 and have completed over 100 continuing education credits to maintain my qualification. After working in California and New Zealand I am happy to be working with a Nevada team of hardworking professionals who care for their customers and arboriculture as much as I do.

Skills and abilities

Reliability

I have been trained to understand the effect of individuals' reliability on the teams overall performance and reputation.

Time management and punctuality

Arriving at a client's property on time and completing multiple jobs at different locations requires planning, communication, and performing tasks in a safe, timely, and efficient manner.

Leadership skills

Good leadership requires an honest, hardworking individual who is knowledgeable regarding the task at hand. He or she must be able to lead by setting a good example and understand the strengths and weaknesses of the group.

Communication skills

In any organization good communication is the key. Throughout every phase of a project team members need to be able to effectively communicate with each other, their employers, and client they are working for. In tree work this can be a matter of life and death.

Achievements

- ISA Certified Arborist 2009-current
- Director, Citytrees.org, Board of Directors - served on the board for the non-profit, Citytrees.org, developed and led tree walks through the city which educated people about important and interesting species in the Redwood City urban forest.

Academic Record

- Pierce College, 24 credits, Horticulture
- Truckee Meadows community college, 16 credits, Urban forestry

Work History

February 2016 – Present

Foreman, Sierra Peaks Enterprises, Gardnerville, Nevada

- Oversee daily operations of tree crew
- Perform work tasks (tree removal, pruning, planting)
- Conduct morning safety briefings and tailgate safety meetings
- Client contact and communications
- Sales and job estimates
- Equipment maintenance
- Class B commercial license
- Aerial lift truck driver/operator
- ISA Certified Arborist

March 2013 – February 2015

Crewman, North Shore Council Contract, Treescape, Auckland, New Zealand

- Tree pruning
- Tree removal
- Tree risk assessment
- Storm clean up / hazardous tree removal

June 2011- August 2012

Foreman/ crew leader, The Davey Tree Expert Company, Menlo Park, California

- Responsible for morning safety meetings, preliminary site inspection, and developing safe working plan for the project
- Communication with superiors and client regarding job status
- Performing work under OSHA and ANSI guidelines and following Best Management Practices outlined by the ANSI safety standard
- Davey Crane operator certificate
- Single rope technique, double rope technique, and aerial rescue
- Aerial lift truck driver and operator

May 2010 – June 2011

ISA Certified Arborist, Independent contractor, Los Angeles California

- Tree pruning
- Tree removal (hazardous trees over sensitive areas)
- Tree cabling
- Insect and disease diagnosis
- Stump grinding
- Irrigation

- Class-B commercial driver's license. (Single vehicle with a weight of 26,001 or more pounds.)

September 2009- May 2010

General operations manager/ crew leader, American Arborists, Reno, Nevada

- Responsible for client contact and composing work orders
- Oversaw jobs to completion while ensuring client and crew safety
- Vehicle and equipment maintenance

Interests

I enjoy outdoor activities such as camping, hunting, and fishing.

ATTACHMENT H – FIRE FUELS REDUCTION AND VEGETATION SERVICES

Vendors proposing to receive an award through this RFQ must provide the information requested below, please mark each component that pertains to your company. Additional lines have been provided for any additional information.

4. SCOPE OF WORK

SCOPE 4.1	Forest Management Hand Crew Services Specification	SOUTH	NORTH	RUAL	STATE WIDE
4.1.1.1	Fuels reduction				<input checked="" type="checkbox"/>
4.1.1.2	Tree thinning				<input checked="" type="checkbox"/>
4.1.1.3	Wildlife habitat improvement				<input checked="" type="checkbox"/>
4.1.1.4	Erosion control				

We will perform all of the scopes except erosion control.

SCOPE 4.2	Large Tree Removal Services	SOUTH	NORTH	RUAL	STATE WIDE
4.2.1	Large Tree Removal		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	

For all Class A and Class B trees, we will perform the scope ourselves. For Class C trees, we will subcontract with the crane.

In the Northwestern counties of Nevada (Lyon, Washoe, Douglas, Humboldt, Pershing, Churchill, Storey, Carson City and Mineral), where possible, we will use our usual subcontractor, Connolly Cranes. In other areas of North and Rural Nevada, we will first attempt to hire reliable, economically competitive cranes and crane operators in the local area, and seek approval from the state agency on a project by project basis to add such operators as Subcontractor(s).

SCOPE 4.3	Forestry Equip- ment Specifica- tion	Manufacturer & Model	SOUTH	NORTH	RUAL	STATE WIDE
4.3.2.1	Tree Shears					
4.3.2.2	Brush Masticators – light, medium, and heavy duty					<input checked="" type="checkbox"/>
4.3.2.3	Feller Bunchers					
4.3.2.4	Forwarders					
4.3.2.5	Cut to length operators					
4.3.2.6	Heavy Cranes			<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
4.3.2.7	Wheeled Skidders					
4.3.2.8	Tracked Skidders					
4.3.2.9	Tub Grinders					
4.3.2.10	Chippers					<input checked="" type="checkbox"/>

SCOPE 4.4	Pesticide Application Specifications	SOUTH	NORTH	RUAL	STATE WIDE
4.4.1	In accordance with NRS 555, vendors must have a Nevada Custom Pest Control License				

SCOPE 4.5	Seed Drills/ Application Specifications	Manufacturer & Model	SOUTH	NORTH	RUAL	STATE WIDE
4.5.2	Agricultural Seed Drills					
4.5.3	No-Till Drills					
4.5.4	Rangeland Drills					

SCOPE 4.6	Hauling Services Specification	SOUTH	NORTH	RUAL	STATE WIDE
4.6.1 – 4.6.5	Hauling Services				

SCOPE 4.7	Ground Seeders/Spreaders Specification	SOUTH	NORTH	RUAL	STATE WIDE
4.7.1	Hand and Electric Broadcast Seeders				

SCOPE 4.8	Controlled Fire Specification	SOUTH	NORTH	RUAL	STATE WIDE
4.8.1	Crews to apply controlled fire to natural vegetation under specified conditions.				

SCOPE	Road Construction/Maintenance	SOUTH	NORTH	RUAL	STATE
--------------	--------------------------------------	--------------	--------------	-------------	--------------

4.9	/Rehabilitation				WIDE
4.9.2.1	Road Blazing				
4.9.2.2	Grading				
4.9.2.3	Backhoe/Trackhoe Work				
4.9.2.4	Rock Removal				
4.9.2.5	Tree Removal		<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	
4.9.2.6	Cut and Fill Work				
4.9.2.7	Skid Trail Construction				
4.9.2.8	Installation of Drainage Structures:				
	A. Culverts and Bar Ditches				
	B. Rolling Dips				
	C. Trench Drains				
	D. Tile Drains				
	E. Erosion Control Barriers and Structures				
	F. Temporary Drainage Crossings				

Tree removal will be performed, as well as pushing back shrubs and other growth off the road.
