Drivers

United Rentals has the equipment to service the State of Nevada. Renting construction equipment, Trench Safety, Pumps, Power & HVAC and Tools is a solution for all Government Agencies. We can also provide equipment needed for Disaster Relief Efforts and Emergency Assistance.

WHY RENT?

- **Cost Savings:** Renting allows Nevada to avoid the ownership costs of capital investment, maintenance and other overhead costs.
- **Peace of mind:** Renting eliminates the hassle and cost of warranties, repairs, storage, regulation compliance and transportation.
- **Assistance from the experts:** We employ the most knowledgeable and well-trained staff to provide information on equipment and it's use.
 - **Flexibility:** With a rental fleet at Nevada's disposal, you can take on more projects that require a wider variety of equipment.
- **Green and sustainable:** You'll have consistent access to the newest, most advanced and efficient equipment on the market.

OTHER CONSIDERATIONS

- Equipment ownership makes sense for some projects and jobs; however, many projects require a variety of equipment that's only used on a short-term basis, making equipment purchases wasteful and inefficient.
 - Consider renting if, the equipment will be used or needed on a job less than 55 percent of the time.
 - The annual cost of rental charges divided by acquisition cost (including interest and fees) is less than \$0.45.
 - Your jobs are varied or require special equipment.
